MERLIN MAGIX® 4400-Series Digital Telephones

Digital telephones that are stylish and feature rich

Get the most out of your MERLIN MAGIX Integrated System with the powerful features of the MERLIN MAGIX 4400-Series Digital Telephones from Avaya. They support the latest high-speed digital communications interfaces, giving you clear, high-quality voice calling and helping to make everyday business communication easy, effective and productive.

4400D Digital Telephone

A single line model with a 2-line by 16-character LCD display

4424D+ Digital Telephone

A multiline model with a 2-line by 24-character LCD display, 24 programmable feature buttons, 4 softkeys, and 4 navigation keys.

4424LD+ Digital Telephone

A multi-line model with a 7-line by 24 character VFD display, 24 programmable feature buttons, 10 softkeys, and 4 navigation keys.

Feature-rich, cost-effective digital telephones

Available in black or white, the MERLIN MAGIX 4400-Series Telephones offer six stylish models to choose from, both single and multiline. Most offer displays and all utilize digital technology. Single pair wiring lets you use the phones with your existing premises wiring, saving you the cost of rewiring your offices.

MERLIN MAGIX 4400-Series Telephones offer the most popular, convenient, widely used business calling features, including:

- Basic everyday features, such as Hold and Transfer

- Conference calling for up to five parties (two external and three internal)

- A Message Waiting Light for use with optional voice mail

- Volume control for ringer, handset, headset and speaker/intercom

- Eight ringing patterns

Most models also include:

- A fixed Redial button, for simple, one-touch use

- Two-way speakerphone capabilities with clear, crisp sound quality

- Hands-Free Answer on Intercom (HFAI) for answering intercom or voice-announced calls without picking up the handset

- A headset interface that can be used without disconnecting the handset

- A Mute button to turn off the handset, speaker-phone, or headset microphones

- Programmable line/feature buttons

Display capabilities

The MERLIN MAGIX™ 4400-Series Telephones offer you a wide choice of display capabilities, helping your employees and system administrators make maximum use of system features and information. Display options include:

- LCD displays on four models (4400D, 4406D+, 4412D+, 4424D+).

- A 7-line by 24-character Vacuum Fluorescent Display on the 4424LD+, for better visibility and a larger screen. It is ideal for attendants or system administrators.

- Access to business telephone directories, message centers, line/feature selection and programming menus, an alarm clock and time on the 4412D+, 4424D+, and 4424LD+ with easy browsing, navigation and programming.

- Incoming Caller ID information for both internal and external calls.

Easy use with optional applications and equipment

The 4400-Series Digital Telephones help you get the most out of the many optional applications and equipment that you can use with the MERLIN MAGIX Integrated System, including:

- A message waiting light that is compatible with MERLIN® Messaging, Avaya INTUITY™ AUDIX® systems and Octel® 100 Messaging.

- A built-in DSS interface on the 4424D+ and 4424LD+ models, which allows you to integrate a 50-button Direct Station Selector console for use by an attendant or operator.

- A dedicated headset jack is available on most models.

The flexibility to choose

Choose the features that suit your communication needs and your budget with the MERLIN MAGIX 4400-Series Digital Telephones. They fully integrate with the MERLIN MAGIX Integrated System to give you powerful communications performance.
