

WholeMade BATH CO

What is CBD oil?

First, it's important to understand that **Cannabidiol (CBD) is not THC**. You won't get a "high" from using CBD products. **It is legal in all 50 US states** to sell and use. CBD oil is made from the hemp plant, and benefits your body through the endocannabinoid system, a vital body system responsible for regulating one's general state of balance, appetite, sleep, mood, hormone regulation, pain and immune response, and so much more.

Why WholeMade®?

WholeMade® started with SALUS®, a handcrafted bath & body care company founded in 2004 by Elissa & Jerell Klaver. With WholeMade, Elissa and Jerell set out to create a new, premiere family of products that combined their expertise in **hand crafting** personal care with the benefits of pure Cannabidiol. Because they are a leading cosmetics manufacturer, they partnered with **Elixinol™** a CBD industry leader that is well respected, established, and at the forefront of the CBD industry. **Today you can find the best hand crafted bath and body care products using the best CBD available and it's called WholeMade®.**

Available in 6 Essential Oil Blends:

Lavender / Relaxing (linalool): Pure lavender essential oil to help calm and soothe.

Elevate (limonene - mood elevating): A cheerful blend of orange, lemon, lime and bergamot essential oils to help uplift and enhance your mood.

Sleep (myrcene - sleep inducing, relaxing): A calming blend of essential oils including chamomile, lemon and lavender to promote your restful and balanced sleep.

Focus (pinene - mental clarity): Grapefruit, rosemary and lime essential oils to aid in your memory, alertness and balance.

Breathe (pinene - respiratory): A blend of eucalyptus, mint, cypress, pine, marjoram and lavender essential oils to create soothing feelings for your respiratory and aches.

Citrus Mint (limonene - mood enhancing): Refresh with lemon, tangerine, lavender and a touch of mint to elevate your mood, well-being and tranquility.
