This tutorial demonstrates how to access your online course after purchasing it. At the point of purchase, you will receive three emails from Human Kinetics Coach Education. The first is to confirm your account has been created on the website. The second is your order confirmation email. The third contains a link and instructions for accessing your course. If you don't see the emails in your inbox, be sure to check your spam folder.

Please note that you will access and take your course through a different website than the one you purchased from. The third email "Accessing your online course" will direct you to our "legacy" site at www.HumanKineticsCoachEducationCenter.com to access your course. Open the email and follow the steps contained in the email to access your course.

This is the email providing information on accessing your online course. Again, note that you'll be taken to our "legacy" website to access and take your course.

Double click and copy the temporary password provided to you in this email. You'll use it to sign in on the legacy website. Next, click the "Access my online course" button. (If your email did not include a temporary password, that means you already have an account on the site. Click the "Access my online course" button to proceed.)
