

## **Environmental Safety and Health @ Work: Contractor Edition-Online Course Outline**

### **Overview:**

This module focuses on the important Environmental, Safety, and Health (ESH) information to ensure a safe and secure workplace for contractors working at a host company. This course includes an overview of the ESH policy and philosophy. Contractors taking this course will learn their roles and responsibilities related to ESH within their host facility and the additional training requirements for their job task. They will understand the general safety and security issues at work, the emergency procedures, and the procedures for reporting and investigating incidences.

### **Who should take this course?**

The content of this program is directed at contractors working for host employers that are subject to federal Occupational Health and Safety Standards for General Industry (29 CFR 1910).

### **Learning Outcomes:**

Upon completion of this course, you should be aware of the following as they apply to your facility:

- Your roles and responsibilities related to ESH
- General safety precautions for your work environment
- How to respond in an emergency and properly report an accident
- The types of ESH information you should request from your facility contact
- The types of company-specific ESH information you should request from your facility

### **Topics:**
