

Radiation Safety Online Course Outline

Course Overview:

Describes ionizing and non-ionizing radiation, potential health hazards of radiation-producing industrial equipment, and how to control workplace exposure to radiation through engineering controls and safe handling procedures.

Who Should Take This Course?

Workers using ionizing or non-ionizing radiation-producing equipment, not including radioisotopes or lasers.

Course Objectives:

At the end of this course, the student should understand:

- Basic definitions of ionizing and non-ionizing radiation, and sample sources for each.
- Potential health hazards of radiation-producing industrial equipment,
- How to control workplace exposure to radiation.

Prerequisites:

None

Topics:

- Radiation Basics
- Health Hazards
- Exposure Controls
- Regulations and Exposure Limits
- Survey Requirements

Registration:

Register online at www.csregs.com, or call 1-800-711-2706 Ext 1.

Discounts:

For companies wishing to register multiple students, the following discounts are available:

- 10% discount for 5-10 licenses
- 15% discount for 11-20 licenses
- 25% discount for 21-50 licenses
- 45% discount for 51-100 licenses
- Call for preferred discounts for over 101 licenses!

To take advantage of the above discounts, please contact us at 1-800-711-2706 Ext 1 **BEFORE** registering so we can issue licenses to be used during the registration process.
