RAPTOR®

TOUGH PROTECTIVE COATING

RAPTOR TOUGH PROTECTIVE COATING is a durable urethane coating that provides surfaces with a protective barrier that can withstand the toughest situations.

Developed to tolerate most climatic conditions, **RAPTOR** is U.V. resistant and won't fade or "chalk" even after years in the sun. **RAPTOR** is also waterproof and protects surfaces from rust making it perfect for surfaces that will be submerged in water, including salt water.

RAPTOR is unlike other bed liners or protective coatings. It's less expensive and easier to apply than other industrial coatings. And in case it does scratch (which is tough to do!), **RAPTOR** can easily be repaired. You can't do that with most of the other bed liners and protective coatings!

When you need a surface protection solution that can stand up to the elements, choose RAPTOR
