## FUTURE FASHION INSPIRATION

What do you think fashion will look like 100 years from now? The good news is: Anything goes! There is no better time to get creative.

Will we look like space people? Will fashion be shiny and silver? Will our eyewear be over sized or teeny tiny? Will it wrap around our heads like a halo? Will our hair be extreme or non-existent? What other headwear might we have? What will our make-up look like? Will our pants be comically high waisted? Will everyone be wearing matching jumpsuits?
