

## Urn-liners™

### Improve quality, food safety & taste of freshly brewed iced beverages

Urn-liners™ are disposable and hygienic liners used in fresh brewed iced beverage dispensing urns. Urn-liners provide quality and operational improvements for liquid dispensing in Restaurants, Quick Service Restaurants (QSR) and Convenience Stores. They are the ideal hygienic solution for iced teas, iced coffees, lemonade, fruit drinks and more.

#### A Hygienic Solution

Urn-liners are easy to install and use with a changeover process taking less than one minute. They eliminate the need for disassembly and reassembly of the spigot for daily cleaning and maintenance. Additionally, the use of Rapak's Urn-liners provides consistent high quality and better tasting product free from cross contaminants.

#### Features and Benefits

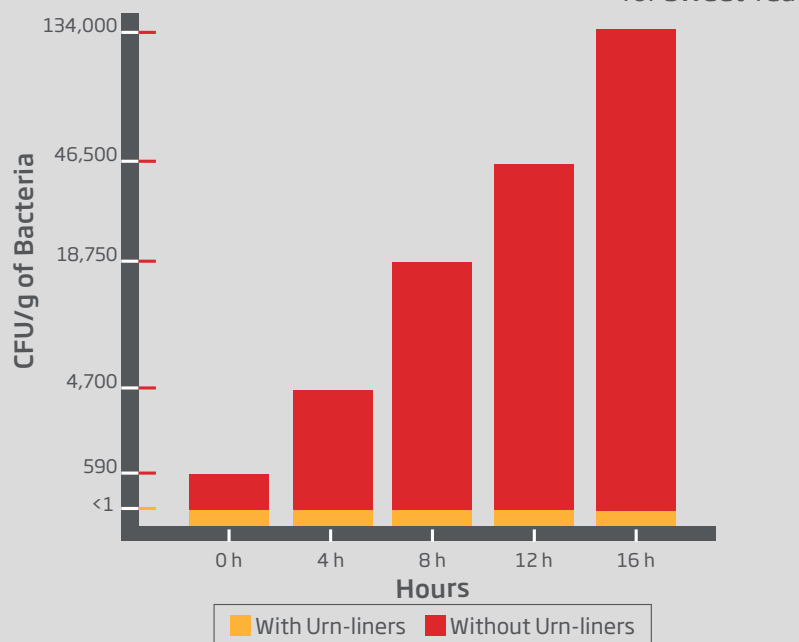

The use of Urn-liners provides a number of operational and quality benefits:

- Reduces the need for daily cleaning
  - » Urn-liners last 24 hours
- Improves urn, spigot and wrap life due to reduction in damage while cleaning
- Solves quality and food safety issues related to product contamination such as:
  - » Cleaning chemical residue in iced beverage
  - » Reduces microbial contamination concerns from urn or spigot
  - » Reduces cross contamination of flavor from the metal urn to the beverage

# TEA | Why should you protect it?

## Bacteria growth with & without Urn-Liners™ for Sweet Tea

## Avoid Risk with Rapak Urn-Liners™

**99%**  
reduction in bacteria
