

## GF-9

### Universal Wedge Action Tensile Grip

This self-tightening wedge grip is ideal for samples up to 25 mm (0.98 in) wide and 6 mm (1/4 in) in diameter. The gripping length is 35 mm (1.38 in). Grip features a spring force lever for quickly releasing the jaws and serrated, hardened steel faces.

### Capacity

2.5 kN, 562 lbf

### Packaging

Includes upper and lower grips.

### Applications

Used for general purpose tensile testing.

### Replacement Jaw Face

Face Type	Dimension	Packaging	Part No.
Straight Cut	25.4 x 31.4 mm 1.00 x 1.24"	Single Face	19058
