

ML-1700

Miniature Tensile Grip

This hardened steel fixture has a 6 mm (1/4 in) retractable jaw with serrated teeth for extra gripping power. Jaw opens to 5.56 mm (0.22 in) to accept wire gauges up to #10 heavy duty. Ideal for rapid, semi-automatic testing of wire, filaments, fibers and cable.

Capacity

2 kN, 450 lbf

Packaging

Single grip only.

Applications

Used for general purpose tensile testing.
