

PEEL TEST FIXTURE

for testing resistance of adhesive bonds

Max. load:	10 kN
Coupling:	5/8" eye end.
Body:	Steel, nickel-plated
Temperature range:	0 ... +70°C Further temperature ranges on request
Scope of delivery:	1 fixture. Additional lower grip is required (not included in the price)

Item no.: JLW105-D254-B254

Peel Test Fixture for Testing Floating Roller Peel Resistance of Adhesives according to ASTM D3167

Roller diameter:	25.4 mm (1 in.)
Roller width:	25.4 mm (1 in.)
Weight:	0.68 kg
