

invictus active **TRAINER**

As seen on TV

Is your gym
inclusive?

The Invictus Active **TRAINER** is compact, bluetooth enabled and the **ultimate cardio equipment** for any wheelchair user.

Attract new members:

Call **0800 832 1916** and make your gym inclusive!

invictus active TRAINER

The Trainer enables your gym to take a very large step towards accessible fitness for everyone.

The Invictus Active Trainer was developed by Paul Cooksey and Scott Smith, founders of the company and both active wheelchair users. Fitness equipment for wheelchair users was not portable, lightweight or easy to find, so they developed their own product; the **Invictus Active Trainer** - a treadmill for wheelchairs.

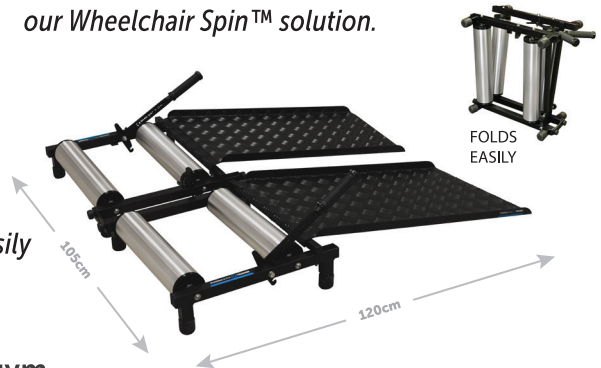

£ Purple Pound

"In the UK, it is thought that some seven million people of working age have a disability, which all adds up to an awful lot of spending power.

This is known as the 'purple pound' and is reckoned to be worth around £249bn to the economy".
