# Wheely Hand Stand

Australia's most accessible  
sanitiser stand!

---

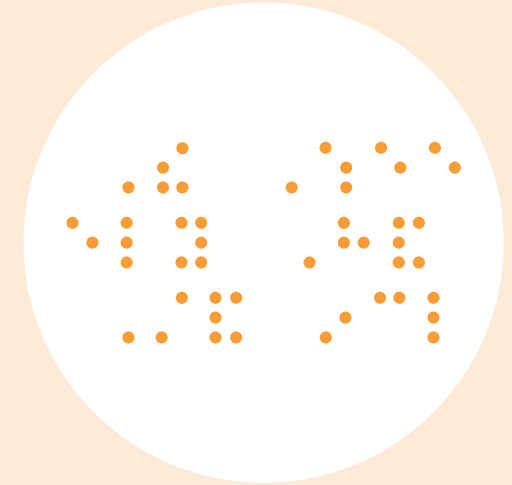

*“Protecting everybody,  
protects **everybody**”*

---

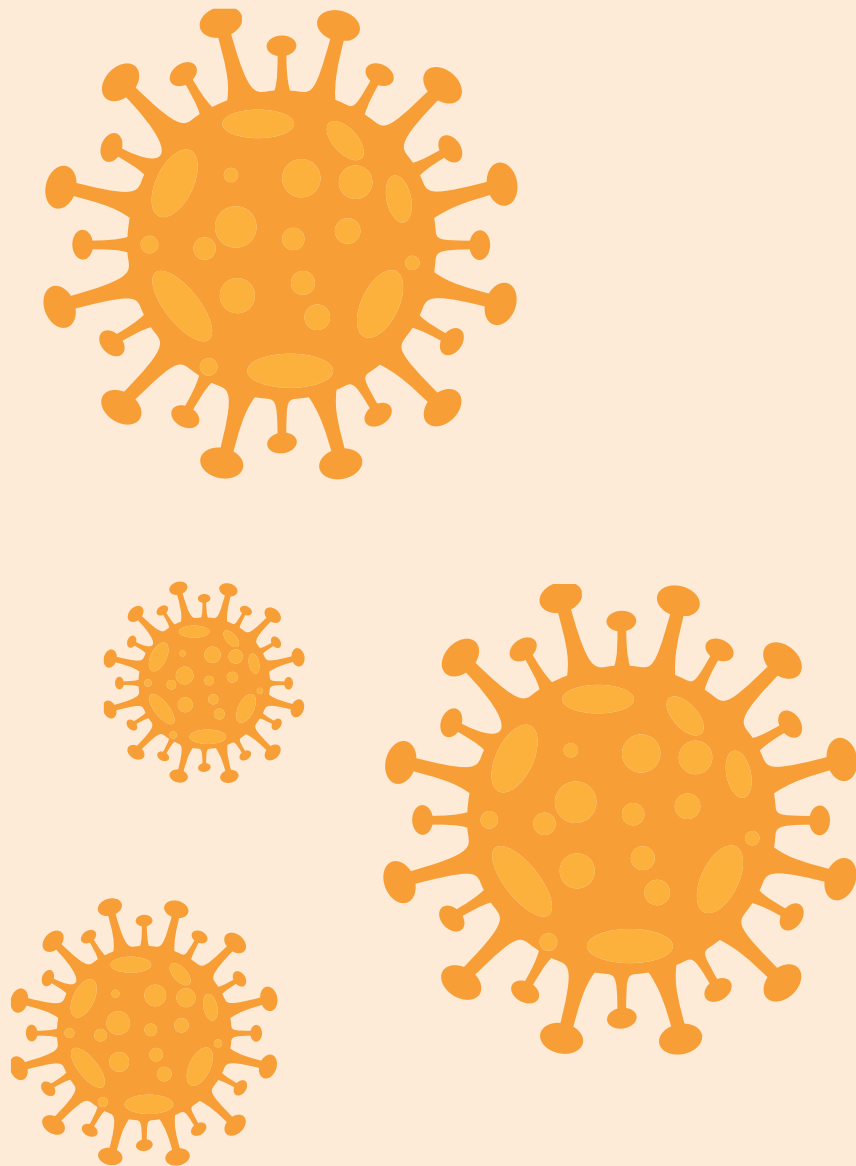

## THE WHEELY HAND STAND

Introducing Wheely Hand Stand, a touchless hand sanitiser dispenser that is at the ideal height for wheelchair users, the elderly and children.

## INCLUDING BRAILLE

The Wheely Hand Stand includes braille for the vision impaired. Antimicrobial sanitiser is released using a sensor, ensuring 24 hour germ-free protection for **EVERYBODY!**

# COVID-19 AND OUR STORY

Until now, the COVID-19 crisis has been about saving lives and staying home, but what happens now when Australia starts to re-open?

The new normal is set to be a 'hands' first world and we all need to be thinking about what protection we are offering to those around us.

Many people are not aware that standard wall mount sanitisers are often installed too high and cannot be reached by wheelchair users, children and the ageing population. They are also often found on walls in places that people with visual impairments cannot easily locate.

As leading wheelchair and disability equipment providers, Push Mobility wanted to create a sanitiser stand that was:

- 1) Inclusive and accessible to EVERYBODY.**
- 2) Offering the latest in antimicrobial sanitiser technology.**

## WHY WHEELY HAND STAND?

- ✓ Kills 99.99% of germs, for up to 24 hours
- ✓ Antimicrobial technology that's alcohol free
- ✓ 100% touch-free
- ✓ Portable or fixed
- ✓ 100% customisable with your branding and logo
- ✓ Easy refills with Wheely Hand sanitiser
- ✓ No power or plumbing maintenance
- ✓ Designed and manufactured in Australia
- ✓ Supports local business
- ✓ Stores 15L lockable with window design monitor liquid levels
- ✓ Easy-English signage and braille for the vision impaired

Hand Sanitiser

Did you know that 20% of people cannot reach a wall mounted hand sanitiser dispenser?

Did you know almost 20% of people living in Australia have a disability?

It is a time for accessibility,  
usability and inclusion

Wheely Hand Stand is the only inclusive and accessible sanitiser station on the market - tried and tested by people with disability.

**HOUR PROTECTION**

# WHY WHEELY HAND SANITISER?

- 1) Not all hand sanitisers are created equal!
- 2) It doesn't just kill germs, it protects your hands, for up to 24 hours!
- 3) Wheely Hand sanitiser utilises the latest in antimicrobial technology

## WHAT DOES THAT MEAN?

Wheely Hand sanitiser is water-based; alcohol-free and lasts longer than alcohol-based sanitisers. It provides an invisible microscopic layer of protection, which continually destroys bacteria for up to 24 hours on your hands.
