# Ontario Workplace First Aid

## WSIB Reg 1101/CSA Z1220-17 Requirements 2023

### First Aid Kits:

- 3 levels of First Aid Kits
- # of First Aid kits based on # employees + # worksites.
- ✓ All supplies latex free
- ✓ Case water/Dust resistant, organized, portable, visible and easily identifiable.

#### Personal First Aid kit: Level 1 (Appendix D)

- 1 per employee working in isolation:
- Ex: Single employee retail, vehicles, remote sites, heavy equipment cabin

#### Basic First Aid Kit: Level 2 (Appendix E)

- Low risk of injury and low probability of injury
- Ex: Retail, hotel lobby, restaurant, tradeshow booth, market booth, cleaning company, legal office, bank, pet grooming, vet clinic
- 2-25 employees per work site = 1 First Aid Kit

#### Intermediate First Aid Kit: Level 3 (Appendix F)

- Moderate to high risk of injury
- Ex: Construction, heavy machinery, snow clearing, landscaping, property management, vehicle with multiple employees, bus operations, pharmacy, health clinic/laboratory
- 2-25 employees per work site = 1 First Aid Kit

#### Optional Extra First Aid supplies based on workplace needs:

- Eye wash, stretcher, AED, Vehicle Labels, forms, tamper tags, etc.

### First Aid Station: 1 per worksite

- Visible in building or in worksite vehicle
- First Aid Kit
- Binder with documents:
  - First Aid Kit Inspection checklist: (Appendix D, E, F)
    - ✓ Contents for quantities, damage, and expiry
    - ✓ Complete every 3 months (recommended monthly)
  - Copy of First aiders on site certifications (Appendix G)
  - Copy of *In Case of Injury* poster form 82 (Appendix H)
  - Accident report forms (Appendix I)
  - Emergency and Supervisor contact* (Appendix J)

# Innovative First Aid Training Program

Designed with the Canadian Workplace in Mind

Every year, more than 620,000 Canadians trust the Red Cross to provide them with the first aid skills and knowledge necessary to respond in an emergency situation.

As a Canadian Red Cross Training Partner, we are proud to offer Red Cross learner-centred, evidence-based first aid training that empowers people across Canada with lifesaving skills while helping workplaces comply with health and safety legislation.

As a response to recent public surveys that have revealed a very low rate of people willing to respond in emergency situations (even among first aid certified), the Red Cross has redesigned its program to increase the participant's confidence and to maximize skill retention by better supporting the different types of learners.

## Employer & Employee Benefits with Red Cross First Aid

**Red Cross courses are learner-centred.** Our Instructors, the cornerstone of participant learning, are using state-of-the-art instructional tools to customize the learning environment to provincial/territorial requirements, to industry-specific needs or to personal learning needs. Participants will watch demonstrations, participate in discussions, engage in hands-on practice and reflection, to ensure they'll confidently understand what to do, rather than just memorize a long list of steps.

With an increased focus on the learning needs of each participant, employees will learn more effectively, enjoy the training more, and be more confident to act in the event of a sudden illness or injury.

**The Red Cross First Aid program offers more training options, greater convenience, and flexibility.** More of our courses have blended learning options, allowing participants to learn at their own pace. Training materials have been redesigned to focus on the essential skills that people need to have when dealing with an emergency situation. Available in new digital format, the training materials are rapidly updated as new research on better methods of care emerges. Participants of Red Cross programs will now have access to our Comprehensive Guide to First Aid & CPR online, and to a free download of our First Aid app.

Options for self-directed learning will reduce the time employees are required to spend in the classroom, and provide them with access to topical resources that can be reviewed at any time.

**Red Cross uses the latest findings from the evidence-based scientific community as the basis of our program.** As scientists and health professionals continue to research new ways to improve care and people's health, we use this information to support the standards of care we have in our program.

First aid training based on the latest science, education and practice of first aid can help reduce lost work time due to injury by improving outcomes for the ill or injured person.

**In response to the ever-increasing demand for electronic data management, Red Cross has launched My Red Cross, our new online certification portal.** All certifications, along with a unique identification number, will be issued directly to participants and captured in the Red Cross database for a minimum of 5 years. Proof of certification can be emailed to the employer, shown on a mobile device, or printed. Employers and workplace inspectors can validate the certification online with the employee's name and unique ID found on the certificate. Employees can sign-up for recertification reminders during their certification cycle.

The new My Red Cross portal ensures quality control in validating certifications. By request, employers can obtain reports of training records from Red Cross Training Partners.

*For workplaces that do not have Internet easily available, we are happy to discuss the most efficient use of these new features.*

We know that regulatory compliance is important to you. Canadian Red Cross First Aid programs meet provincial/territorial worker safety and insurance boards legislative requirements for workplace first aid training (except in Quebec where our Training Partners offer the Quebec government's first aid program). All provincial/territorial regulators have also endorsed our electronic method of issuing certification.

Please visit [redcross.ca/firstaidlegislation](http://redcross.ca/firstaidlegislation) for current information on federal/provincial/territorial legislation.

**For more information about these and other exciting opportunities to increase your employees' preparedness, or to answer questions regarding electronic certifications, please contact:**

# Emergency First Aid

Basic one-day course offering lifesaving first aid and cardiopulmonary resuscitation (CPR) skills for the workplace or home. Course meets legislation requirements for provincial/territorial worker safety and insurance boards and includes the latest first aid and CPR guidelines.

## Duration

CPR A: 6.5 hours in-class OR 3.5 hours in-class + 4 hours online learning\*\*

CPR C: 7.5 hours in-class OR 4.5 hours in-class + 4 hours online learning\*\*

## Instructor

First Aid Instructor

## Prerequisite

None

## Completion

- Successfully demonstrate skills and critical steps
- Min. 75% mark for written knowledge evaluation
- Attend and participate in 100% of the course

## Certification

3-year certification in Emergency First Aid and CPR Level A or C

## Recertification\*

CPR A: 4 hours in-class OR 3 hours in-class + 4 hours online learning\*\*

CPR C: 5 hours in-class OR 4 hours in-class + 4 hours online learning\*\*

\*Recertification not available in all jurisdictions.

\*\*Online learning time will vary depending on the learner.

## Course Content

- The Red Cross
- Preparing to respond
- The EMS system
- Check, Call, Care
- Airway emergencies
- Breathing and Circulation emergencies
- First aid for respiratory and cardiac arrest
- Wound care

*Includes any other content required by specific legislation*

## Participant materials

- *First Aid & CPR* (print and/or eBook)
- *Comprehensive Guide to First Aid & CPR* (eBook)
- *Emergency First Aid* – Online (Blended only)
- Emergency First Aid certificate (digital certificate issued upon successful completion)

# In case of injury or illness at work

## 1

### Get medical help

Your employer is responsible for providing first aid. See a doctor or go to a hospital if you need treatment. Your employer pays for your transportation on the day of injury.

## 2

### Document

Tell your employer about your injury or illness. They investigate and keep a record of what happened.

## 3

### Report to the WSIB

You can scan the QR code below or visit [wsib.ca/reporting](https://wsib.ca/reporting) and follow the steps to submit a Worker's Report of Injury/Illness (form 6). Your employer must report an injury or illness to us within three days.

## 4

### Work together

We work with you and your employer to help you recover and return to work safely, at the right time.

Scan the QR code or visit [wsib.ca/reporting](https://wsib.ca/reporting) to submit a Worker's Report of Injury/Illness (form 6).

### Questions? We're here to help.

Sign up for our online services to send us a message anytime, anywhere, or call us at 1-800-387-0750 or TTY: 1-800-387-0050.

Visit [wsib.ca/onlineservices](https://wsib.ca/onlineservices) for details.
