

INSTALLATION GUIDE

Step 1

Wrap the strap at the top of the Base Rack around the bottom of the driver or passenger seat headrest and fasten the clip. Adjust strap to preferred tightness.

Step 2

For optimum security, press the velcro patches at the bottom end of the Base Rack against the lower part of the rear of your seat.

Step 3

Slide the fastening clips on each individual pack through the small straps on the Base Rack. Fasten the buttons for a firm hold.

Step 4

Organize and attach the individual packs as you please for your own convenience.
