SAFETY DATA SHEET (SDS)

SAFETY DATA SHEET (SDS)					
Section 1. Identification					
Product identifier CHEM PROOF A					
Other means of identification CHEM PROOF; CHEM PROOF PART A					
Recommended use and restrictions on use Floor Coating					
Initial supplier i	dentifier		Québec; Canada; H7L 6B9 info@epoxycher	mtec.com	
Emergency telep	ohone numbe	r/restriction on use Canada – CAN	NUTEC 24-hour number 613-996-6666		
Section 2. Hazard identification					
Classification of hazardous product (name of the category or subcategory of the hazard class)					
Skin irritation (Category 2)					
Sensitization – Skin (Category 1)					
Eye irritation (Category 2Å)					
Hazardous to the aquatic environment – Acute & Chronic (Category 2)					
Information elements (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)					
Warning H315 Causes skin irritation.					
H317 May cause an allergic skin reaction.					
H319 Causes serious eye irritation.					
H401 Toxic to aquatic life.					
H411 Toxic to aquatic life with long lasting effects.					
P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P264 Wash hands/nails/face thoroughly after handling. P272 Contaminated work clothing					
			tive clothing/eye protection/face protection. I		
			ion or rash occurs: Get medical attention. P36		
			, Rinse cautiously with water for several min		
present and easy to do. Continue rinsing. P337 + P313 If eye irritation persists: Get medical attention. P273 Avoid release to the environment. P391					
			er in accordance with local, regional or nation	al regulations.	
Other hazards known None					
Section 3. Composition/information on ingredients					
Chemical name			CAS number or other	Concentration (%)	
Reaction product: bisphenol-A-(epichlorhydrin) epoxy resin		25085-99-8	60-100		
Alkyl glycidyl et	her		68609-97-2	< 10	
Benzyl alcohol			100-51-6	< 10	
* S	tatement - This	· · ·	nge(s) instead of the actual concentration(s) conside	ered trade secret(s).	
Section 4. First-aid measures					
Inhalation			p comfortable for breathing. Call a doctor if y		
Ingestion			O NOT INDUCE VOMITING. NEVER give		
			onvulsing. Rinse mouth thoroughly with water	r. Have victim drink two glasses	
			lean forward to reduce risk of aspiration.		
Skin contact			inutes) IF SKIN irritation or rash occurs: Get	medical attention. Take off	
E		ed clothing and wash it before reuse.	1		
Eve coniaci			al minures (15-70) Remove confact lenses 11 t	Continue	
Eye contact				present and easy to do. Continue

Section 6. Accidental release measures Personal precautions, protective equipment, and emergency procedures Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8). Methods and materials for containment and cleaning up Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required. Section 7. Handling and storage Precautions for safe handling Wear gloves/protective clothing/eye protection/face protection. Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin, and clothing. Keep away from heat, sparks, and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8. Conditions for safe storage, including any incompatibilities Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks. Section 8. Exposure controls/Personal protection Control parameters (biological limit values or exposure limit values and source of those values) Exposure limits: Dust – PEL-TWA 15 mg/m³ (total dust) & 5 mg/m³ (respirable fraction); Appropriate engineering controls Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area. Individual protection measures/personal protective equipment Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use. Section 9. Physical and chemical properties Appearance, physical state/colour Liquid Vapour pressure Not available Vapour density **Odour** Characteristic Not available Odour threshold Not available **Relative density** 1.12 **pH** Not available Solubility Insoluble Melting/freezing point Not available Partition coefficient - n-octanol/water Not available Initial boiling point/range Auto-ignition temperature Not available Not available **Flash point** $> 93^{\circ}$ C **Decomposition temperature** Not available **Evaporation rate** Not available Viscosity Not available Flammability (solids and gases) Not available **VOC** Not available Upper and lower flammability/explosive limits Other None known Not available Section 10. Stability and reactivity Reactivity Does not react under the recommended storage and handling conditions prescribed. Chemical stability Stable under the recommended storage and handling conditions prescribed. Possibility of hazardous reactions None known Conditions to avoid (static discharge, shock or vibration) None known **Incompatible materials** Oxidizing materials; etc. Hazardous decomposition products None known

	Section 11. Toxicological information				
Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)					
Causes skin irritation. May cause an allergic skin reaction. Causes serious eye irritation.					
Symptoms related to the physical, chemical, and toxicological characteristics					
Skin irritation, redness, stinging, pain; Eye irritation, redness, tearing;					
Delayed and immediate effects (chronic effects from short-term and long-term exposure)					
Skin Sensitization - Possible; Respiratory Sensitization - No data available; Germ Cell Mutagenicity - No data available; Carcinogenicity - No					
	ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity - No data available; Specific Target Organ Toxicity - Single Exposure				
	- No data available; Specific Target Organ Toxicity — Repeated Exposure - No data available; Aspiration Hazard - No data available; Health				
Hazards Not Otherwise Classified – No data available. Numerical measures of toxicity (ATE; LD ₅₀ & LC ₅₀)					
CAS 100-51-6 LD ₅₀ , Oral - Rat 1360 mg/kg;					
ATE not available in this document.					
Section 12. Ecological information					
Ecotoxicity (aquatic and terrestrial information) No data available for the product					
Persistence and degradability No data available					
Bioaccumulative potential No data available					
Mobility in soil No data available					
Other adverse e	ffects Toxic to aquatic life. Toxic to aquatic life with long lasting effects.				
	Section 13. Disposal considerations				
	Information on safe handling for disposal/methods of disposal/contaminated packaging				
Dispose of conte	nts/container into safe container in accordance with local, regional, or national regulations.				
	Section 14. Transport information				
	UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations				
	NOT REGULATED				
UN number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime)					
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (epichlorhydrin); Class 9; PG III;					
UN number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air)					
UN3082; ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (epichlorhydrin); Class 9; PG III;					
Special precautions (transport/conveyance) May also be shipped as a LIMITED QUANTITY in accordance with TDG.					
	Environmental hazards (IMDG or other) MARINE POLLUTANT				
Bulk transport (usually more than 450 L in capacity) Possible Section 15. Regulatory information					
Section 13. Regulatory mormation Safety/health Canadian regulations specifics Refer to Section 2 for the appropriate classification. This product has been classified in accordance					
Salety/ileanin C	with the hazard criteria of the Hazardous Products Regulations (HPR).				
Environmental Canadian regulations specifics Refer to Section 3 for ingredient(s) of the DSL					
Safety/health/environmental outside regulations specifics					
United States OSHA information: This product is regulated according to OSHA (29 CFR).					
United States EF	A (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.				
United States TO	SA information: Refer to the ingredients listed in Section 3.				
Section 16. Other information					
	st revision of the safety data sheet March 05, 2021 version 3 (NSS ENTREPRISE INC.)
