

KR19A SlimFire™ Remote installation and operating instructions

The KR19A works with the TM751 Transceiver. It lets you turn on and off two individually coded X10 Modules and brighten and dim lights connected to Lamp Modules and Wall Switch Modules. In the default state (after first fitting the battery) the KR19A is set to Housecode A. The first (top) two ON-OFF buttons control modules set to Unit Code 1. The second (middle) two buttons control A2.

1. Plug in an X10 TM751 Transceiver (sold separately).
2. To turn on or off X10 Modules set to Unit Code 1 (on Housecode A) press the first (top) ON or OFF button. To turn on or off X10 Modules set to Unit Code 2 (on Housecode A) press the second (bottom) ON or OFF button. To brighten or dim Lamp Modules or Wall Switch Modules press the number button first, the press Brighten or Dim button. If you want to control Modules 1 and 2 on Housecode A, that's it. You don't need to read any further.

To change the Housecode

- Press and hold the first (top) ON and OFF buttons at the same time for 2-3 seconds to enter Program Mode (the LED stays on).
- Press and release the first (top) **ON** button the appropriate number of times for the Housecode you want to set. Once for A, twice for B, etc. The LED blinks off for each press.
- Press the second (bottom) ON or OFF button to return to Normal Mode. The unit will also return to Normal Mode if no keys are pressed for more than 30 seconds.

To change the Unit Code for the first (top) two buttons (the second pair of buttons are always one # higher than the first pair, i.e. if you set the first button to 6, the second button controls 7, etc.).

- Press and hold the first (top) ON and OFF buttons at the same time for 2-3 seconds to enter Program Mode (the LED stays on).
- Press and release the first (top) **OFF** button the appropriate number of times for the Unit Code you want to set. Once for 1, twice for 2, etc. The LED blinks off for each press.
- Press the second (bottom) ON or OFF button to return to Normal Mode. The unit will also return to Normal Mode if no keys are pressed for more than 30 seconds.

NOTE: If you want to change the Housecode AND Unit Code, change both of them before pressing the second (bottom) ON or OFF button to return to Normal Mode.

To change the battery: Pry the unit apart and fit a CR2025 3V Lithium battery. Observe polarity.

F.C.C. CAUTION - THIS DEVICE COMPLIES WITH PART 15 OF THE FCC RULES. OPERATION IS SUBJECT TO THE FOLLOWING TWO CONDITIONS: (1) THIS DEVICE MAY NOT CAUSE HARMFUL INTERFERENCE, AND (2) THIS DEVICE MUST ACCEPT ANY INTERFERENCE RECEIVED, INCLUDING INTERFERENCE THAT MAY CAUSE UNDESIRE OPERATION. NOTE: NO CHANGES OR MODIFICATIONS MAY BE MADE TO THE UNITS. ANY CHANGES MADE TO THE UNITS WILL VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

X10 Wireless Technology, Inc. 90 Day Limited Warranty

X10.com, a division of X10 Wireless Technology, Inc. (X10) warrants X10 products to be free from defective material and workmanship for a period of 90 days from the original date of purchase at retail. X10 agrees to repair or replace, at its sole discretion, a defective X10 product if returned to X10 within the warranty period and with proof of purchase.

If service is required under this warranty:

1. Visit www.x10.com/support/return_policy.htm, or e-mail sales@x10.com to obtain a Return Merchandise Authorization (RMA) number.
2. Return the defective unit postage prepaid to X10 (see address on back).
3. Enclose a check for \$4.00 to cover postage and handling.
4. Enclose a dated proof of purchase.
5. X10 is not responsible for shipping damage. Units to be returned should be packed carefully.

Please visit www.x10.com/support for help.

Rockaway, NJ 07866

RMA#

Tear off and keep the portion to the right (setup instructions are on the other side of it) and keep for future use.

visit www.x10.com/support/return_policy.htm
or e-mail sales@x10.com to obtain a Return Merchandise
Authorization (RMA) number.

Write your RMA number above. Tear off and tape this label to the outside of the package and mail it (postage prepaid).

Trim

Mini Timer MT13A

A Controller, Timer and Alarm Clock all in one! Programs up to eight X10 Modules to go on and off at specific times, up to a total of 64 timed events. Controls eight modules instantly. Dims lights too.

Maxi Controller SC503

Lets you control up to 16 X10 Modules at the touch of a button from anywhere in the house. Dims lights too!

Mini Controller MC10A

Lets you control up to eight X10 Modules at the touch of a button from anywhere in the house. Dims lights too!

2-Way Home Control Interface CM15A

Set up from a PC to control up to 256 X10 Modules. ActiveHome Pro software download & USB cable included.

Thermostat Set-Back TH2807

Automatically sets-back your central heating/air conditioning. Mounts on the wall under your existing thermostat and plugs into an Appliance Module.

Wireless Remote Control System RC5000

Lets you control 16 X10 modules from inside or outside your home. Can also dim and brighten Lamp Modules and Wall Switch Modules. Works with the HR12A PalmPad Remote and X10 RF Wall Switches (SS13A, SS15A).

Lamp Module LM465

Can be Dimmed and Brightened from any X10 Controller. Responds to "All lights on". Rated for 300 W. Incandescent only.
2-Way version LM14A.

SocketRocket LM15A

Screws into an existing light fixture. Controls up to 150W, incandescent only.

Appliance Module - AM486/AM466

Two pin polarized (AM486) or 3 pin grounded (AM466). For controlling an air conditioner, TV, stereo, etc. anywhere in the home. Rated 15A for heaters, coffee pots etc.; 1/3 H.P. for motors; 400W for TVs; 500W for lamps. *2-Way versions available AM14A (2 pin), AM15A (3 pin).*

Wall Switch Module WS467

For controlling important indoor and outdoor security lights. Replaces your existing wall switch and installs like a regular dimmer. Dimmed/brightened from any X10 Controller. Rated 500W incandescent only.

3 - Way Wall Switch Module WS4777

For controlling a light which is controlled by two switches. Same features as WS467.

Split Receptacle Module SR227

Replaces existing wall outlet. The top outlet functions like an Appliance Module, the bottom one is a regular outlet. Rated 15A.

Universal Module UM506

Isolated contact relay and beeper. Can be set for momentary or continuous operation. Not compatible with X10 security systems.
