

# RF Serial FireCracker Receiver, Model MR26A

## INSTALLATION INSTRUCTIONS

The MR26A RF serial Interface connects to a serial port on your PC. It receives wireless Radio Frequency (RF) commands from X10 remote controls and motion sensors and passes the commands to your PC. These commands are then interpreted by Boom, X Ray Vision, MultiView, WebView or other software applications from X10.

1. Shut down your PC and plug the MR26A into any unused serial port.
2. If you are using an X10 FireCracker Interface, plug the FireCracker into your serial port, and then plug the MR26A into the FireCracker. Restart your PC.
3. Download the desired software application from:  
[www.x10.com/software](http://www.x10.com/software)
4. Refer to the installation instructions and/or the help file for the software application you are using the MR26A with.
