

NightWatch™ 2 Indoor/Outdoor Black & White Camera (with microphone)

Model SC23A

- Extremely small size.
- Plugs into RCA type inputs on any TV or monitor.
- Can be turned on and off from X10 controllers.
- Remote controlled power supply (included).
- Very sensitive so it can be used in low light conditions.
- Use it outdoors to monitor your front door, back yard, etc. (60 ft. cable included).

The SC23A includes a very small and compact B/W video camera (WC12A) that plugs into the RCA audio/video jacks on any TV or monitor. You can place it anywhere you want to monitor (indoors or outdoors). It also includes a microphone so you can hear as well as see what's going on. It is powered from a remote controlled power supply (XM17A) so you can turn it on and off by remote control using X10 controllers and remotes (sold separately).

1. Attach the camera to a wall in the location you want to monitor. Mount it with the cable coming out of the bottom. If you are installing the camera outdoors, pass the 60 ft. cable from the camera through a small hole in your exterior wall.
2. Plug the camera's plug into the adapter cable.
3. Plug the video plug on the adapter cable into the yellow Video In socket on your TV/monitor.
4. Plug the audio jack into either audio socket (red or white) on your TV/monitor.
5. Plug the power supply's jack into the power socket on the adapter cable.
6. Plug the power supply into any 120V AC outlet.

X10 Wireless Technology, Inc. LIMITED 1-YEAR WARRANTY

X10.com, a division of X10 Wireless Technology, Inc. (X10) warrants X10 products to be free from defective material and workmanship for a period of one (1) year from the original date of purchase at retail. X10 agrees to repair or replace, at its sole discretion, a defective X10 product if returned to X10 within the warranty period and with proof of purchase.
