Need flexibility? Connect to other monitors and devices with HDMI and a display port. While the HDMI supports FHD monitors, the display port can support up to 4k resolution or 3 FHD monitors.

The Trusted Platform Module 2.0 is a commercial-grade security chip installed on the motherboard that creates and stores passwords and encryption keys. It verifies that the computer has not been tampered with before booting up and protects your data against external software attacks. Plus, a Kensington lock slot and padlock loops provide extra physical security for your equipment.
