

Product Information Sheet

Description

Liquid Release creates a colorless, lubricating membrane that prevents stamping tools from sticking to the surface of fresh concrete.

Primary Application

- Stamped concrete

Benefits

- Simplifies stamping concrete
- Easy to apply
- Safe for integrally-colored concrete
- Requires no washing
- Leaves no residue

Technical Data

Packaging:

Liquid Release is packaged in a 20-litre (5 gallon) pail.

Storage:

Combustible liquid. Store in a cool, well-ventilated area. Keep away from heat, sparks and open flame. Fixed equipment, as well as transfer containers and equipment, should be grounded to prevent accumulation of static charge.

Properties:

- Appearance: Colorless liquid
- Odor: Fruity gum
- Density: 0.76 g/mL
- pH: Not applicable

Usage

Directions: Wait for all water to evaporate from the concrete surface, then spray Liquid Release over the area where you will place the next few mats (usually 6-10 mats). Proceed with stamping in a timely manner, as Liquid Release will eventually evaporate. Re-apply if necessary. When stamping, several mats should be placed in line to maintain a consistent pattern.

Allow the concrete to complete its cure (minimum 28 days). For a perfect, long-lasting finish, apply the appropriate Interstar sealer to the clean, dry surface.

Coverage: Approximately 74-93 m² (800-1000 ft²) per 20-litre (5-gallon) pail.

Safety

Combustible liquid. Keep away from heat, sparks and open flame.

Avoid breathing vapors. Wear protective equipment when handling. For additional information, please refer to the Material Safety Data Sheet (MSDS).
