

TRUPAN YELLOW MDF

A laser cutter's dream. This trupan yellow MDF cuts soft like butter and is the perfect product to laser cut and engrave. Due to its affordability, this is our staple piece.
Available in 3mm and 6mm thickness.

MYLAR STENCIL MATERIAL

The perfect stencil solution! Available in 3 thicknesses, Mylar is the perfect product to cut stencils from. From arts & crafts, wall stencils and hand-held stencils, it is a versatile product that cuts with little to no burr. Mylar is food safe and can be used in a variety of environments.
Available in 915x600mm sheets, or 50kg rolls.

WOOD VENEER - DOUBLE SIDED

This MDF with beautiful veneers are perfect for laser cutting and engraving. Please keep in mind that this is real wood and patterns / grains may vary between sheets. 3mm and 6mm available in all finishes. All of our veneers are double-sided.

*** Real wood veneer can be treated; oiled, stained, varnished.
Left sides of these images are oiled with boiled linseed oil for illustration**

PRE-OILED WOOD VENEER - DOUBLE SIDED

This 3mm MDF with a beautiful pre-oiled veneer (1000x600mm) is perfect for laser cutting and engraving. The wood has undergone a meticulous sanding process, ensuring a polished texture. It has been coated in a mix of rich shades, creating muted but breathtaking colours. This wood has also been expertly sealed, providing you with unrivaled convenience and durability.

But let's not forget that this is nature's gift, and each sheet has its own unique personality. The patterns and grains vary from sheet to sheet, making each piece a rare treasure waiting to be discovered.

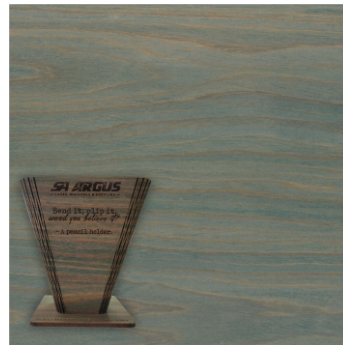

This wood is no ordinary wood—it's a masterpiece in itself!
