

ANOLES care sheet

PET DEPOT

CAGING NEEDED

10-20 gallon terrarium with secure lid. Multiple hiding areas. Climbing branches. Water area for them to swim in.

BEDDING & WATER NEEDS

Sphagnum moss, mulch-type or reptile bark. Anoles may not drink from a water bowl. Mist the habitat twice daily. They will drink water droplets from plants.

LIGHTING & UVB

Provide 10-12 hours of light daily. Use UVB Full Spectrum Lighting.

TEMPERATURES & HUMIDITY

Temperature should range from 75° - 88°F during the day, with a hot spot of 100°F. Temperature at night should never be below 60°F. Humidity should be around 80%. Use a mist sprayer or humidifier several times a day.

DIET

Crickets, meal worms, wax worms. Dust food with calcium powder daily and a vitamin supplement once or twice a week. Feed once a day.

MISC. INFORMATION

Anoles regularly shed their skin so be sure the humidity is at an appropriate level.

AVERAGE SIZE

5 to 8 inches

LIFE SPAN

3+ years.
