

CHINESE WATER DRAGON care sheet

PET DEPOT

CAGING NEEDED

10-20 gallon terrarium with screen lid. Multiple hiding areas. Climbing branches. Water area for them to swim in.

BEDDING & WATER NEEDS

Potting soil, calcium sand or peat moss. Chlorine-free water should be provided in a shallow bowl that cannot be tipped over.

LIGHTING & UVB

Provide 12 hours of light daily, 14 during colder months. Use UVA Full Spectrum Lighting.

TEMPERATURES & HUMIDITY

Temperature should range from 83° - 88°F during the day, 75° - 80° during the night and up to 90° when basking. Humidity should be around 80%. Use a mist sprayer or humidifier. Do not let it reach above 85% to 90% as this may cause respiratory problems.

DIET

Crickets, meal worms, wax worms, vegetables. Dust food with calcium powder daily and a vitamin supplement once or twice a week. Feed adults every other day and juveniles every day. Pinkies can be feed to adult Chinese Water Dragons.

MISC. INFORMATION

Clean water every day since Chinese Water Dragons are known to defecate in it.

AVERAGE SIZE

24 to 36 inches

LIFE SPAN

Up to 18 years.
