Meet simpler, smarter skincare that works.

Expertly formulated with simple, healthy plant-based ingredients and efficacy as its first priority. Using clinically proven and plant-based ingredients, our formulas are scientifically activated to revive common skin concerns including aging, dehydration, clarity and uneven tone. It's everything your skin needs in one low-maintenance routine.

Mission

To create gentle, well-made products that give the skin exactly what it needs, when it needs it. Nothing more, nothing less.

The best skincare comes down to one thing: effective ingredients.

Only the good stuff

We formulate our products using high percentages of actives: ceramides, vitamin C, niacinamide, fruit acids, hyaluronic acid and antioxidants

Single note formulation

Active ingredients are used at correct percentages and not repeated in any other product to reduce sensitivity and enhance the brag-worthy effects

Targets specific concerns

Every product has a unique purpose and is results-driven for specific skin concerns (brighten, hydrate, refresh, even, clarify)

COLLECTION

The Go-Getter Day Serum

Our light-weight day serum packs a powerful punch against stressed and dehydrated skin caused from pollution and sun. This lightweight serum contains pure, vegan hyaluronic acid, which penetrates deep to hydrate and plump. Combined with firming Tripeptide-5 and a potent blend of antioxidants including Vitamin C, Kakadu Plum, Watermelon and energizing Ginseng, think of this as your partner-in-crime in fighting the elements. Use daily for dewy, soft skin that's ready to take on anything.

INCI: Purified Water, Propanediol, Vegan Sodium Hyaluronate, Glycerin, Palmitoyl Tripeptide-5, 3-Glyceryl Ascorbate (Vitamin C), Benzyl Alcohol, Dehydroacetic Acid, Persea Gratissima (Avocado) Fruit Extract, Panax (Ginseng) Root Extract, Citrullus Lanatus (Watermelon) Extract, Terminalia Ferdinandiana (Kakadu Plum) Fruit Extract, Cucumis Sativus (Cucumber) Fruit Extract, Cellulose Gum, Tartaric Acid

Meet our founder, Sarah Otto

After years in dermatology as a nurse practitioner, Sarah Otto quickly learned that less is more.

Most skincare products on the market today are too strong, too harsh and contain too many active ingredients. Sarah found that using minimal formulas made from clinically proven ingredients simply works. As a busy mom to four energetic children, Sarah also wanted something effortless—a multitasking, results-driven routine that fit into her active lifestyle.

That's why she created Otto Skin Goods—a skincare line expertly formulated with simple, healthy plant-based ingredients and efficacy as its first priority. Sarah's mission is to create gentle, well-made products that give the skin exactly what it needs, when it needs it. **Nothing more, nothing less.** Welcome to a simpler, smarter and scientific approach to skincare.

When we say “ethically made”, we mean it.

Free from harsh, allergenic and sensitizing ingredients. To us, safety means not only avoiding harmful ingredients, but reducing allergy risk and correctly utilizing active ingredients. Our ingredients are vetted for potential harm, allergy, irritation, compatibility and necessary percentage—only then is an active or plant-based ingredient added to one of our products.
