"We’ve considered the functionality of our work from every angle—from how well they hold up in commercial dishwashers, how they look stacked up tall in the pass, how easy they are to pick up from the table, and how light reflects off the semi-matte surface."

— Connie Matisse, East Fork’s Co-Founder
Core colors are available year-round. Designed to harmonize with the other glazes in the core palette, you’ll also find that the neutral colors complement but not overshadow the food served on them.

Our pottery is made by humans. Differences in glaze applications and surface can be expected and embraced.

Panna Cotta
A warm, tan-toned off-white

Eggshell
A cool, airy, grayish white
