1.2 Measurement Guide

Step (1.2.1): Preparing for measurement

All of the suits in our Aliexpress shop are Custom Made according to your body size measurements by our Experienced tailors.

Important tips to get your right measurements:

1. Please ask a friend better to ask a tailor to take measurements according to our measurement guide step by step.
2. Please Provide **Body Measurements**, our tailors will relax measurements to make a well-fitting suit for you according to your height, weight and our tailor's rich clothing making experiences. You don't need to relax any measurements. Just provide us all the measurements, all the rest will be done by our tailors perfectly. :)
3. When you take the measurements, it is better that you wear only a **well-fitting** shirt and a well-fitting suit pants as our measurement model which is good for right measurements.
4. Keep a relaxed and normal natural posture.
5. Prepare one measuring tape.

How to measure your Body Measurements.

1. Neck Measurement

- Measure around your neck at the height where your collar, if buttoned, would be.
- This measurement should be taken along the lower section of the neck, below your Adams Apple and above your Sternal Notch.
- The tape should be comfortably touching the skin, with enough room so that you do not feel restricted.
- My Neck Measurement is ____ . ____ inches.

2. Full Chest Measurement

- Measure around the chest and body at its fullest part (typically right under the armpits and shoulder blades, right across the nipples).
- Hold the tape against the body tight enough so that it does not slip down, but not so tight that it restricts breathing. It should be “snug”.
- Make sure the tape is horizontal and the person's arms are by their side; then take a normal breath and measure.
- Do not puff out your chest
- Double check this measurement.
- My Full Chest Measurement is ____ . ____ inches.

3. Full Shoulder Width Measurement

- Measure from the end of the right shoulder to the end of the left shoulder.
- We define the “End of the Shoulder” as where the horizontal plane of the shoulder intersects the vertical plane of the arm (see illustration).
- Double check measurement.
- My Full Shoulder Width Measurement is ____ . ____ inches.

4. Right Sleeve Measurement

- Measure from the end of the right shoulder to the “Pinch” of the right hand.
- The “Pinch: of the hand is found where the base of the thumb and the base of the index finger intersect (approximately 1 inch above the index finger knuckle).
- Double check this measurement.
- Right Sleeve Measurement is ____ . ____ inches.

5. Left Sleeve Measurement

- Measure from the end of the left shoulder to the “Pinch” of the left hand.
- Double check this measurement.
- Left Sleeve Measurement is ____ . ____ inches.

6. Bicep Measurement

- Measure around the fullest part of the bicep with the arms by your side.
- You need only measure one side.

My Bicep Measurement is _____. _____ inches.

7. Wrist Measurement

- Measure around the fullest part of the wrist.
- You need only measure one side.
- Wrist Measurement is _____. _____ inches.

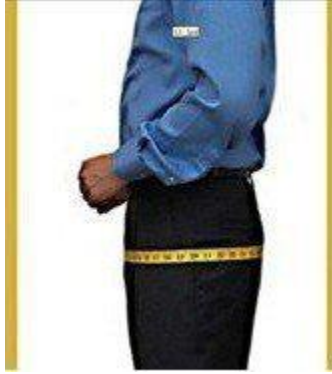

8. Waist / Stomach Measurement

- Measure around the fullest part of the waist/stomach or right below your bottom ribs, whichever is greater.
- Jacket Waist Measurement is _____. _____ inches.

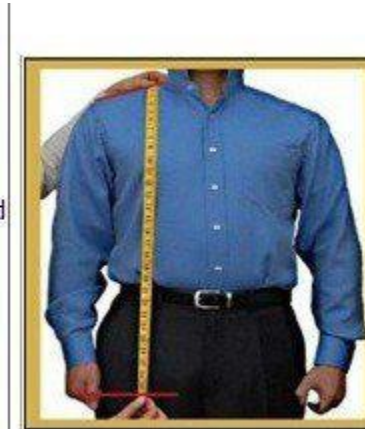

9. Hips/Seat Measurement

- Measure around the fullest part of your hips and buttocks.
- My Hips/Seat Measurement is _____. _____ inches.

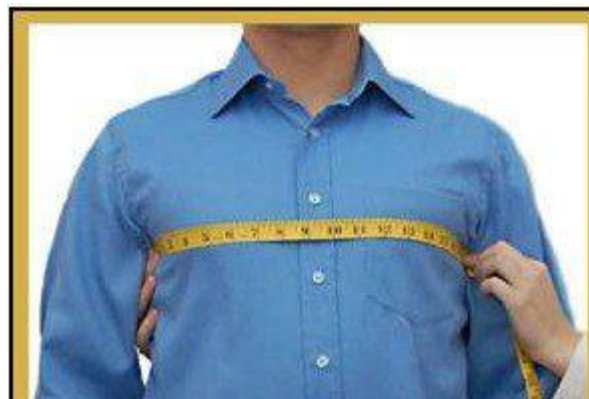

10. Front Jacket Length Measurement

- Measure straight down the front from the base of the neck (right or left side) to the point level with your thumb knuckle.
- My Front Jacket Length Measurement is _____. _____ inches.

11. Front Chest Width Measurement

- With the person's arms by their side, measure across the front of the chest.
- Start at the front of the right armpit, continue measuring across the nipples, and then stop at the front of the left armpit. Do not measure under the arms.
- This is the front part of the full chest measurement we took in step 2.
- My Front Chest Width Measurement is _____. _____ inches.

12. Back Width Measurement

- With the person's arms by their side, measure across the back.
- Start at the back of the right armpit, continue measuring across the shoulder blades, and then stop

at the back of the left armpit. Do not measure under the arms.

- This is the back part of the full chest measurement we took in step 2.
- My Back Width Measurement is _____.____ inches.

13. Half Shoulder Width Measurement (Right)

- Measure from the end of the right shoulder to the base of the right side of the neck.
- We define the “Side of the Neck” as the point at which the vertical plane of the neck intersects the horizontal plane of the shoulder.
- My Half Shoulder Width Measurement (Right) is _____.____ inches.

14. Half Shoulder Width Measurement (Left)

- Measure from the end of the left shoulder to the base of the left side of the neck.
- My Half Shoulder Width Measurement (Left) is _____.____ inches.

15. Full Back Length Measurement

- Measure from the base of the back of the neck to the floor.
- We define the “base of the back of the neck” as the point at which the 7th cervical bone is located. To easily find this point, have the person being measured tilt his head forward so that the “knobby”bone at the base of the neck becomes obvious. Once located, you can have the person stand straight again and then measure.
- No shoes please!
- Double check this measurement.
- Full Back Length Measurement is _____.____ inches.

16. Half Back Length Measurement

- Measure from the base of the back of the neck to the top of the pants waistband area.
- Half Back Length Measurement is _____, _____ inches.

17. Trouser Waist Measurement

- Measure around your waist at the level where you would normally wear your pant's belt.
- With the tape measure snug around your waist, relax, and take the measurement.
- Don't be alarmed if this measurement seems larger than expected; off-the-rack pants are normally labeled as being smaller than what they really are.
- Trouser Waist Measurement is _____ inches.

18. Trouser's Out seam Measurement

- Measure from the top of your pant's waistband to the floor along the outside of your leg.
- Make sure the tape is tight, that you are standing straight, and then measure. No shoes please!
- Double check this measurement.
- Trouser's Out seam Measurement is _____ inches.

19. Trousers Inseam Measurement

- Measure from the lowest part of your crotch area to the floor.
- Make sure the tape is tight along the inside of your leg, that you are standing straight, and then measure.
- No shoes please!
- Trousers Inseam Measurement is _____. _____ inches.

20. Crotch Measurement

- Measure from the front top of the pant's waistband to the back top of the pant's waistband.
- Make sure not to take this measurement too tight.
- Crotch Measurement is _____. _____ inches.

21. Thigh Measurement

- Measure around your thigh at its widest point.
- You need measure only one side.
- My Thigh Measurement is _____. _____ inches.

22. Knee Measurement

- Measure around your knee at its widest point.
- You need only measure one side.
- My Knee Measurement is _____. _____ inches.

23. Right Full Sleeve Measurement

- Measure from the base of the right side of the neck to the pinch of the right hand
- This is a check Measurement. This measurement should be within a half-inch of measurements 4 and 13 combined. If not, recheck those two measurements.
- Right Full Sleeve Measurement is _____ inches.

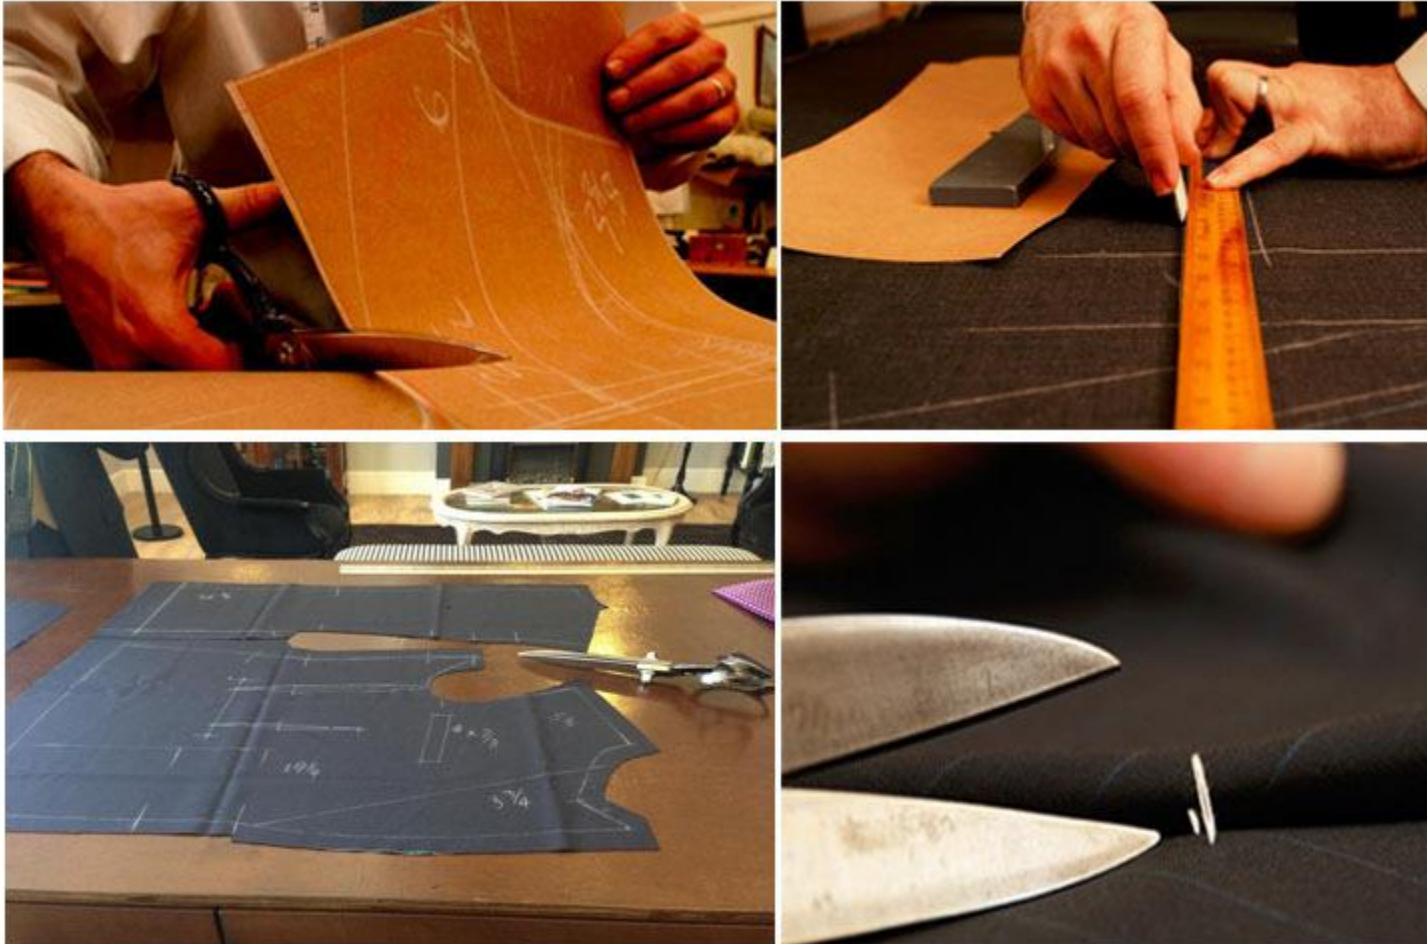

24. Left Full Sleeve Measurement

- Measure from the base of the left side of the neck to the pinch of the left hand

- This is a check measurement. This measurement should be within a half-inch of measurements 5 and 14 combined. If not, recheck those two measurements.
- Left Full Sleeve Measurement is _____ inches.

Steps 2: confirmation and production

Note:

.please keep in touch with us after your place the order in our Paris METRO Couture store.

We will confirm all the details with you.

Each custom made suit usually takes 7-14 days to make you suits and after we confirm everything is OK, we will send out your suits, usually you will get your suits in 7-14 days after we ship out your suit.

(In special holidays or National holidays there will be a bit delay. We hope you can understand.

Steps 3: Package Delivery

Packaging:

Each suit will be folded carefully to protect its unique form and cleanness, so our customers can wear it directly after receiving them.

Shipping date:

Normally, the package will be sent out 7-14 days

after receiving your payment order details confirmation. Usually we will use E packet quick as the shipping method .and tracking number will be given to you to track the status of your package.

Forwarder and lead time:

Most of our orders are free shipping by EMS or similar postal services, it usually takes 1 ~ 2 weeks to arrive in US, UK, Australia, New Zealand, Germany, Canada, France, Italy , some Europe countries and so on.

So after receive your payment and measurement, it will take totally about 2~3 weeks for you to get the item. If you need suit urgently, please let us known, we can be more faster.

About Express delivery:

If you want to use express delivery (such as DHL, UPS, FEDEX, TNT) to meet your timeline, we will check the shipping charge for you.

Delivery Note:

.DHL/UPS/FEDEX Express usually take 3-5 working days to arrive at the destination. And it`s about 6-11 working days by EMS depending on the destination.

Usually, we make a lower declared value to help customer to avoid the tariffs. As different countries have different tariff policy, which we can`t know all of them, please contact us if you need special treatment (such as you require a much lower declared value), we can try to help.

Thank you for your valuable time and patience, we treasure our Collectors at Paris METRO Couture.

Sincerely,

Rose Freeland,
