

# Paris METRO Couture Print on Demand Shipping

Some of the items sold on ParisMETROcouture.com are products that are “printed on demand”, and cut and sewn when you place an order. This is a fairly new technology and exciting, because your item is made when you order it, one at a time. These items include printed T-Shirts, sweatshirts, onesies, leggings, pencil skirts, dresses, miniskirts, beach towels, cellphone cases, tote bags, pillows and beach blankets when stated they are Original Art or Print on Demand.

While we strive to do this at very fast speeds it is slightly slower than an item that is already made and awaiting to be shipped. This method of creating and shipping adds extra days to the process of your new item expected arrival to your address.

We take about **2-7 business days** to create apparel products (t-shirts etc.) and **2-5 business days** for non-apparel (posters etc.) products. Then you should **add shipping times on top of that**. Speed and price depends on product type and destination. It can get a bit confusing, that's why included the tables below as provided by our printer to hopefully clarify the expected time of arrival.

97.66% of our print on demand orders are shipped within 5 business days. More than a half of our orders are shipped within 3 business days or less. We thank you for your understanding and hope it will be well worth the wait, as our designs are original in every sense of the idea. Also, we welcome you to contact us through this website whenever you may need to discuss all things Paris METRO Couture.

Thank you for selecting Paris METRO Couture for your next new apparel, accessory or home decoration that is printed on demand.
