

FOREIGN CHANGE FOR CHANGE

MISSION: Co-founded by a group of diverse, passionate Northwestern University students, COMMUNITY CURRENCY (CC) seeks to chip away at educational inequalities by optimizing on the fact that more than 90% of international travelers return to the United States with leftover foreign currency. Here's how it works: (1) CC collects foreign currency in international airports, college study-abroad offices, and banks; (2) the foreign currency is converted into American money; and (3) that money directly supports disadvantaged Chicagoland children's participation in summer camps at the Boys & Girls Clubs of Chicago. We dream to ensure that the zip code you're born in doesn't determine the story of your life.
