

## RESCUING OVERLOOKED AND STEREOTYPED COMPANION ANIMALS IN CHICAGOLAND

**MISSION:** LULU'S LOCKER RESCUE is a non-profit, volunteer-run, companion-animal rescue working to bring to light the plight of black cats and dogs and senior/hospice animals in shelters as well as the misconceptions surrounding FIV cats. We aim to lower the euthanasia rate of these animals by educating the public and providing foster care as we seek out permanent homes. We are committed to the protection of the misjudged and wrongly stereotyped through compassion and respect, which we believe both animals and human beings deserve. We are based out of Frankfort, IL, and rescue cats and dogs in Chicago and the surrounding suburbs.
