

EMPOWERING SICK KIDS IN
CHILDREN'S HOSPITALS. LIKE MAGIC.

MISSION: OPEN HEART MAGIC teams up with children's hospitals to empower young patients undergoing intense stress, fear and sadness from serious disease and intense medical protocols. Teams of certified children's hospital magicians, all volunteers, go where few charities go and work with children in pediatric intensive care, in-patient oncology, burn units and the emergency room as a regular part of their regular medical treatment. With experience at twelve children's hospitals and an annual reach of over 13,000 kids, OPEN HEART MAGIC is dedicated to bringing hope and happiness to strengthen kids fighting to get better.
