

PURPLE ASPARAGUS EDUCATES CHILDREN,
FAMILIES AND THE COMMUNITY ABOUT EATING
THAT IS GOOD FOR THE BODY AND THE PLANET

MISSION: Our award-winning program, Delicious Nutritious Adventures, brings healthy foods to life in Chicago elementary school classrooms. Students are introduced to a seasonal ingredient each month, starting with apples in October and ending with berries in June. Each class, kids get to touch, feel, smell, and of course, taste. Lessons culminate with children making three simple recipes accomplished from start to finish at their desks. Your support brings our healthy eating programs to more children, more families, and more communities!
