Skill: The procedure manager installed by system has many convenient methods to uninstall after opening procedure manager, click uninstall, it will list all the application procedures installed by system.

9 Troubles Shooting

The first startup of MID is slow

After the MID system upgraded, the first startup need to install the pre-installed application softwares, the lead time is around 2-3 minutes, the startup afterwards will be much quicker.

MID can't connect Wi-Fi

1. Make sure the wireless router of internet service can work normally.
2. Ensure the MID and wireless router in certain distance, and no wall or other barrier between them
3. Ensure the user name and password both correct.

MID feels hot

When many application procedures are used meanwhile, or the brightness of screen open to the lightest or under charging, MID may feel fever. It is normal.

Email can't be set .

- 1.Ensure your internet is well connected.
- 2.Make sure your email setting way is correct.
- 3.Keep your system time and local time consitent.

The system is abnormal and can't work.

When you install some third party application procedure, it may cause abnormal work, you can press Reset key(next to power port) to reset the system.

The webpage can't be opened

- 1.Please keep the distance from router to MID in effective range.
- 2.Please restart WIFI and try again.

MID works terribly slow sometimes

It is normal phenomenon. Please turn off some application you don't need in advanced task management, or uninstall some third party application to release more system resource.

Troubleshooting

•Device cannot connect to Wi-Fi

- 1) Ensure the wireless network is working by testing it using another wireless device.
- 2) Ensure the device and the wireless router is within the range of the wireless network to be connected too. Walls or other obstructions will reduce the possible distances between wireless devices.
- 3) Ensure the security password being used is correct.

• Device doesn't turn on

- 1) You cannot turn on the device when the battery charge is below the critical level, please charge the battery.
- 2) Press the RESET button on the top of the device and check if it is restarting normally or not.
- 3) Check if the charger is connected correctly.

•Heat Issues

When running multiple applications, using the screen on its brightest setting, or when being charged, this device can get quite hot. This is normal and should not cause any inconvenience when in use.

• System has anomalies and doesn't work correctly

Installing some third-party applications may cause the system to operate incorrectly. Press the RESET button and perform a system reset to resolve this issue.

• **Cannot set E-mail Account or registration application**

- 1) Ensure that the tablet is connected to a Wi-Fi network and can connect to the Internet.
- 2) Ensure your E-mail settings have been entered correctly for the account being accessed.
- 3) Make sure your system time and local time is correct.

• **Cannot record**

Press the RESET button on the top of the device, and then check if the record function works correctly.

• **The stand-by time of the device is too short**

- 1) The duration of the lithium battery varies with environmental temperature changes and the service conditions. If the environment temperature is too low or too high, the duration of the battery will be affected. It is recommended to use this device at normal temperature.
- 2) Battery life is dependent on usage. High volume, WIFI, and the frequent use may cause the battery to be drained at a higher rate.

• **No sound via earphone**

- 1) Please check if the volume setting is 0.
- 2) Please check if audio file is broken, and try to play another audio file to confirm. If the audio file is broken, it may cause severe noise or static.

• **The color distortion of video or picture display**

Press the RESET button on the top of the device to resolve this issue.

• **Cannot copy files**

- 1) Please check if the device is connected to the computer correctly.
- 2) Please check if the memory space is full.
- 3) Please check if the USB cable is broken.

• **No sound or no image via HD Output.**

- 1) Please check if the device is connected to an HD cable correctly, and the TV settings of the HD port is correct.
- 2) Please check if the HD cable is broken.
- 3) Press the RESET button on the top of the device, then check if the HD output function works correctly.

• **Other troubles**

Please follow up the steps as below to fix the other troubles before you return the MID/Tablet to us:

- 1) Press the RESET button on the top of the device, then check if the function works correctly;
- 2) Upgrade the firmware from the CD and restart the device and then check if the function works correctly.

Frequently Asked Questions

- **Will my existing eBooks be compatible with this device?**

Most popular e-book formats that are not DRM protected are compatible as long as they are in a supported format: TXT, LRC, PDF, HTM, EPUB, etc. If they are not compatible, an application may be available on APKShare.com, which could assist you.

- **Will this device play High Definition video?**

Yes, the maximum HD resolution is 1920x1080.

- **Can I add more storage?**

Yes, there is a Micro SD card slot on the base of the unit, which supports up to 32GB of additional memory.

- **Can I run multiple applications at once?**

Yes, if you plan on running several applications at the same time we recommend installing a task manager for the unit to run most efficiently.
