

G1058H How to connect Bluetooth Keyboard:

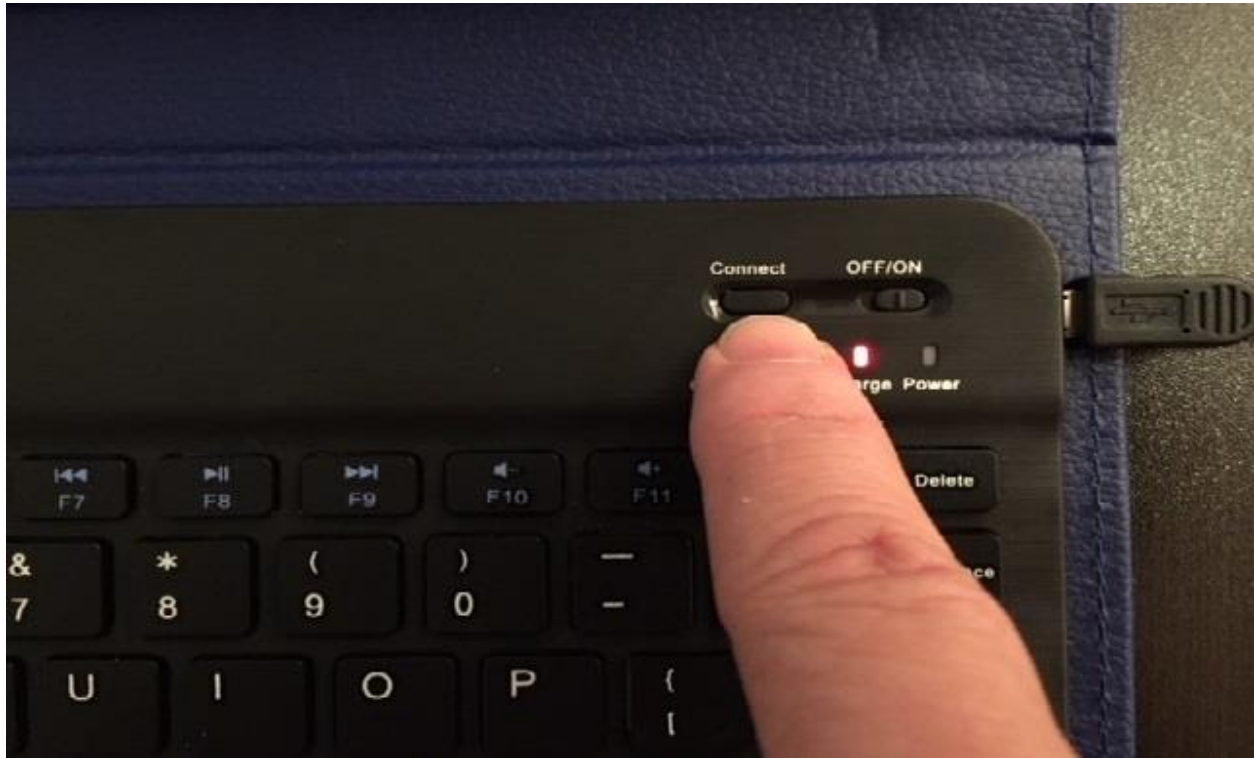

Go to Settings on your tablet and turn on Bluetooth.

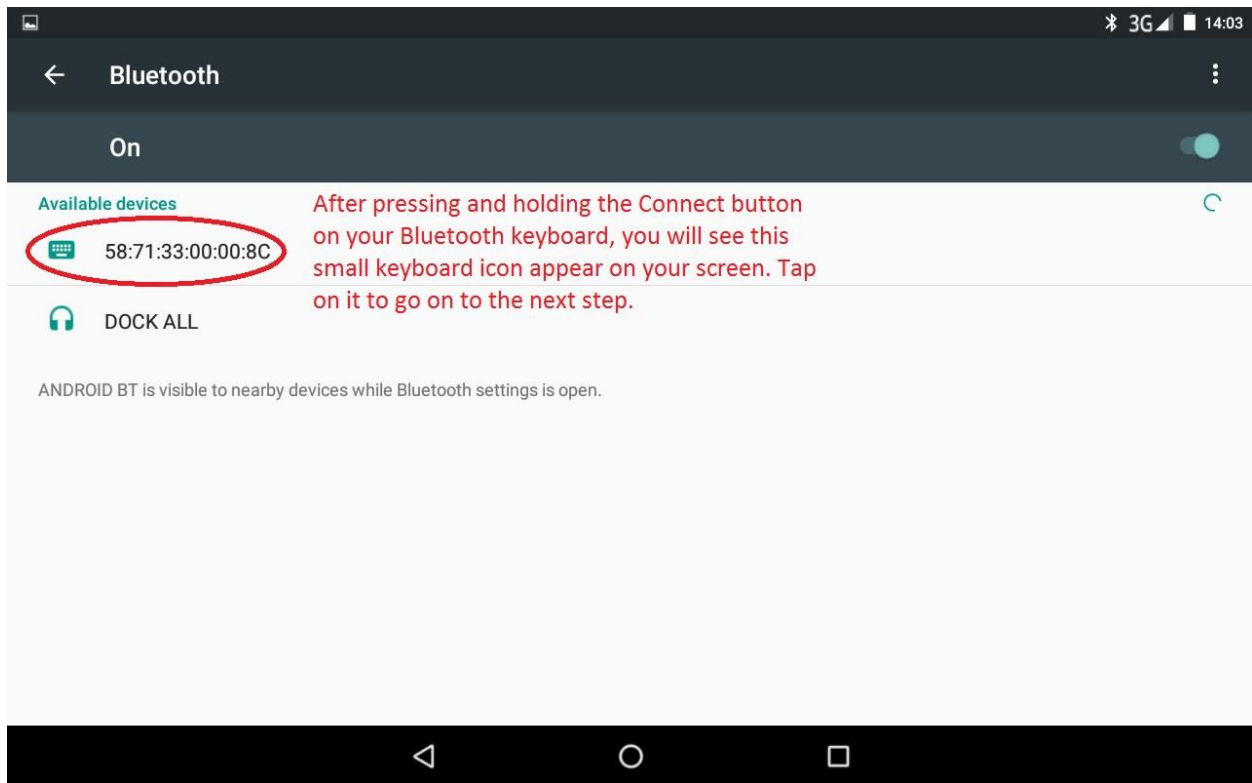

Turn the Bluetooth keyboard on. Make sure you have charged the keyboard for at least an hour. (The keyboard will need to be charged periodically).

Press and hold the Connect button on your keyboard until the Bluetooth light on your screen starts blinking.

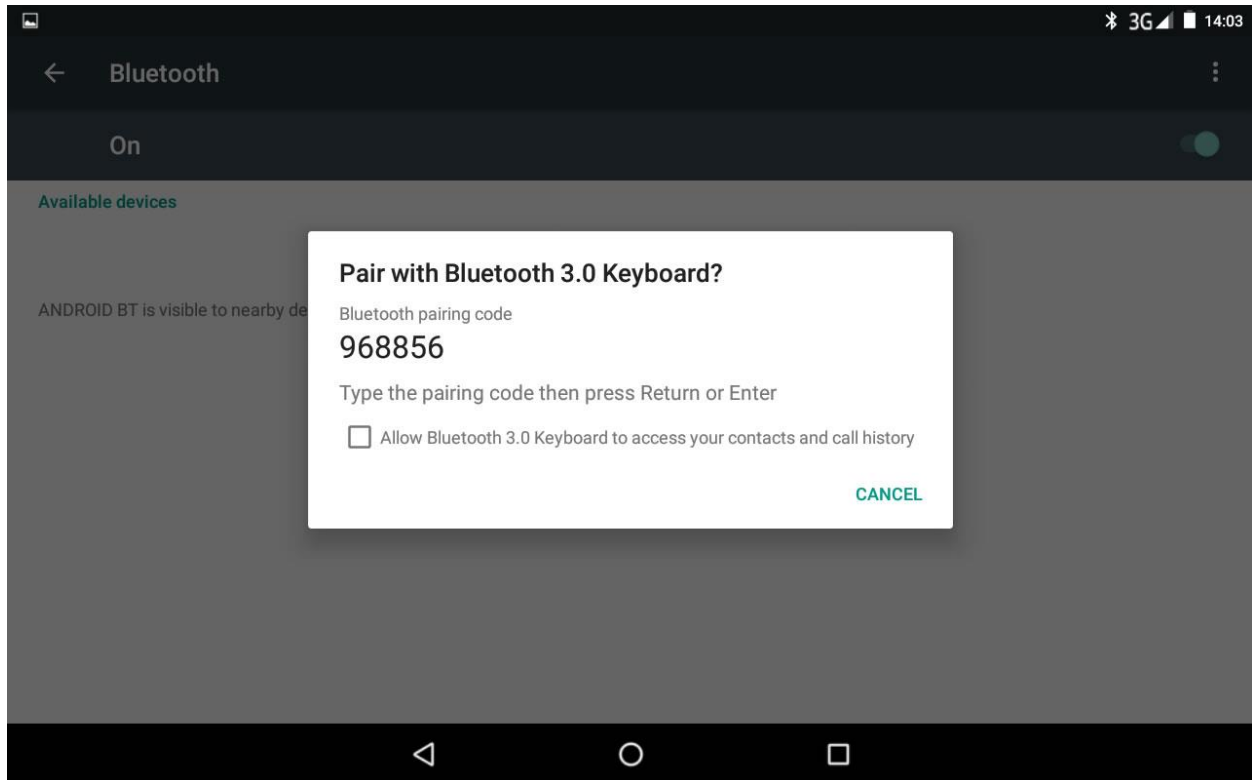

When your Bluetooth keyboard appears on your screen, tap on it to move on to the next step.

You will then see a window pop up on your screen with a Bluetooth pairing code number.

Type that code on your Bluetooth keyboard and press the Enter button.

If you entered the pairing code correctly then you will see this confirmation on your screen.
