

1 Keyboard is for Android devices. Follow the steps below to connect the Bluetooth Keyboard to your device. For optimal performance charge the keyboard 3-4 hours prior to its use.
Step 1: Open "Settings" in your device.

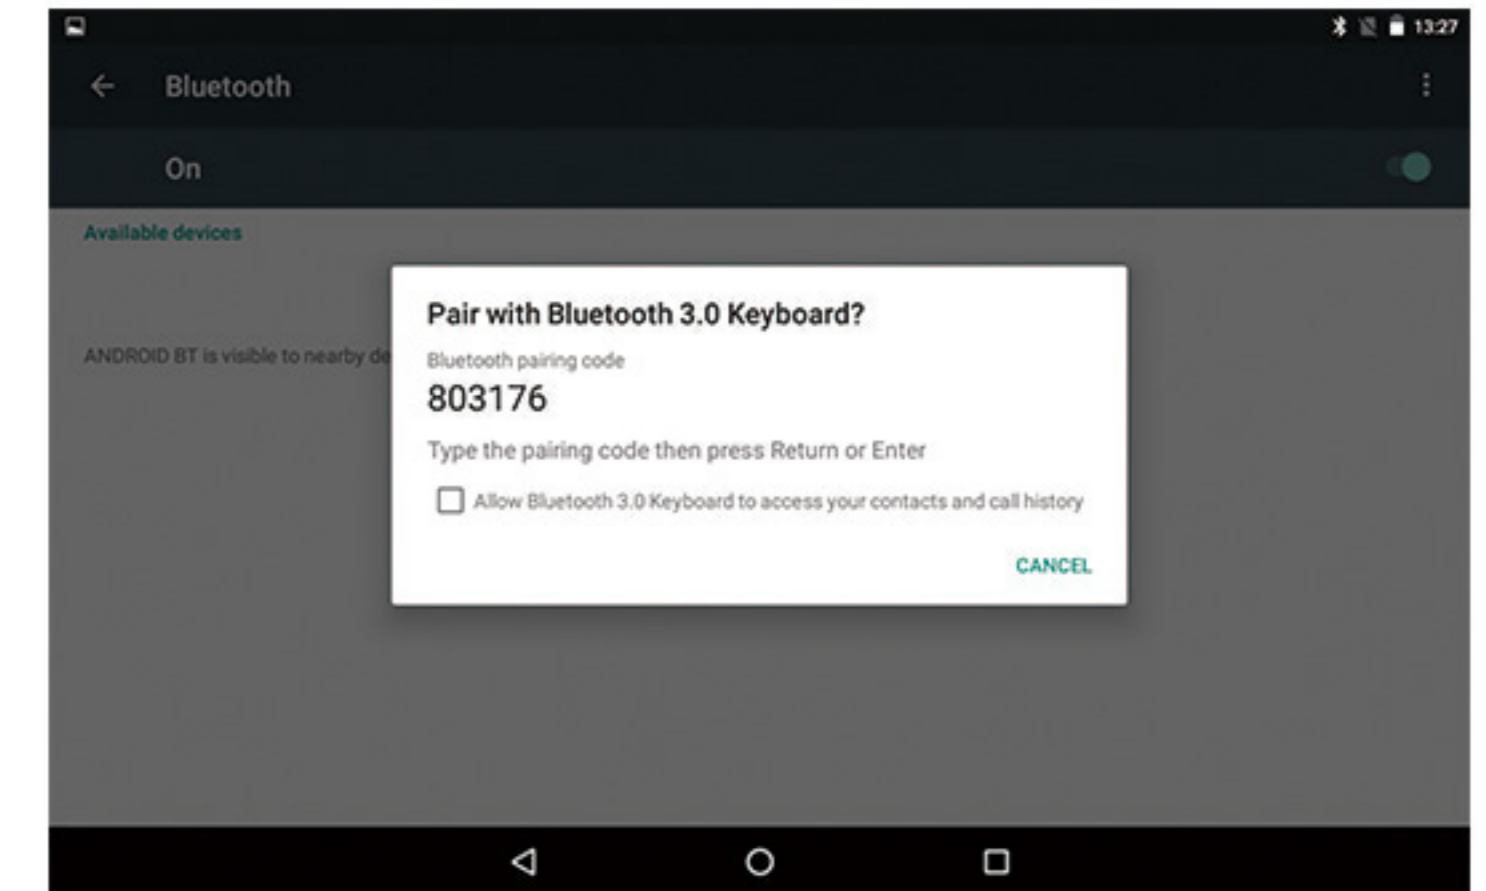

4 Tap the keyboard icon.

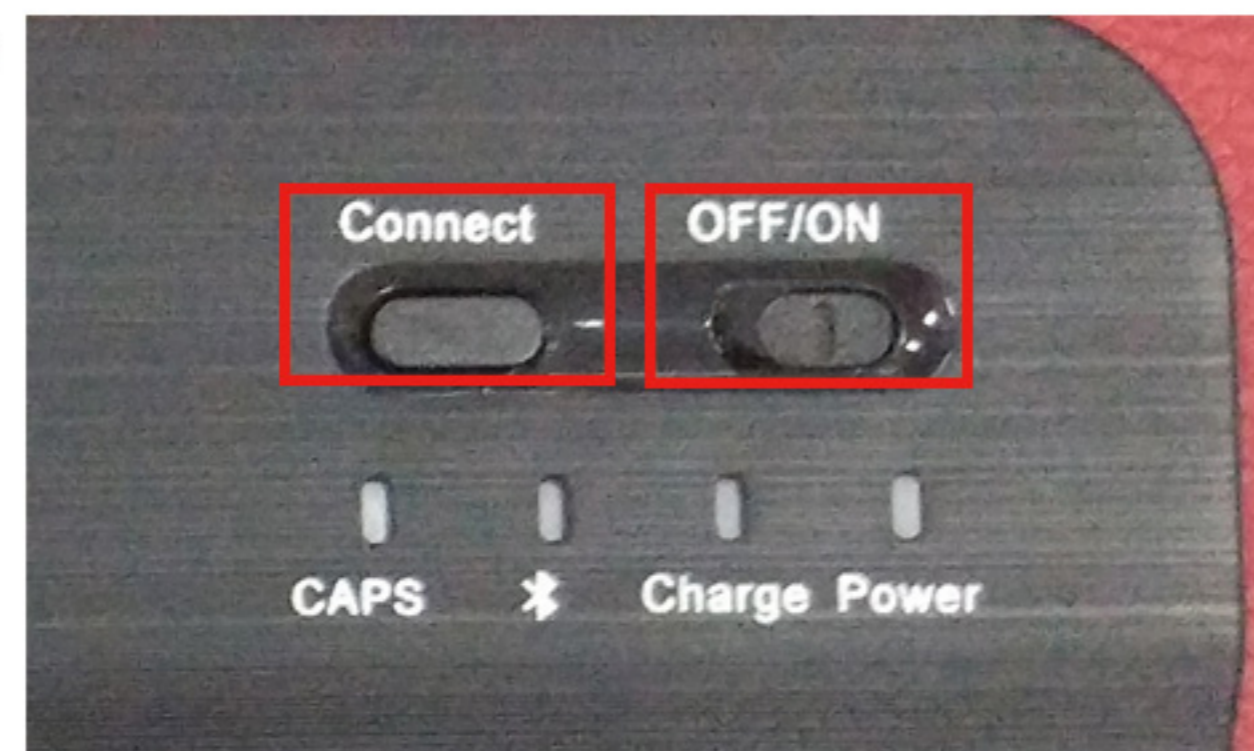

2 Insure the Bluetooth is on. Once in "Settings", tap the Bluetooth icon to open.
If Bluetooth is off, simply tap it to open.

5 Using the keyboard, enter the password that appears on the tablet screen, then press "Enter" on the keyboard.
The keyboard will be paired.

3 Turn on the keyboard, and then press the "CONNECT" button to pair the devices.

6 Pairing is complete when "Connected" appears under the keyboard name.
The keyboard will remain connected unless it is turned off.
Device and keyboard will auto connect once powered on.
