

## Embroidered Quilt Label Template

Print this template onto Sticky Fabri-solvvy and then use a standard pen to fill in your message. Keep your letters open and not too small. especially lowercase letters. The smaller the letter, the harder it will be to embroider.

Next, prep your fabric. Begin by cutting a piece of fabric big enough for your embroidery hoop. Once your fabric is cut, place template in centre of fabric and hoop the fabric.

Embroider the stem first, then the leaves and then finish with the flower buds.

When you are finished embroidering your lable, remove hoop and cut the label out, ensuring that you leave a 1/2" seam allowance on all sides.

— = Stem Stitch

◊ = Lazy Daisy

•• = French Knot
