Global Goals Game

Crack the Code to a Sustainable Future

Global Goals Game: Rules

Use 24 direction cards to plan and follow your journey to the global goals. Starting anywhere on the grid, collect as many goals as you can without encountering a hazard. To collect a goal, your character must land on spot adjacent to or on the goal (***only*** if there is a pathway to walk on). If your character lands on or passes a spot adjacent to a hazard, your mission has failed; adjust your plan.
