

Character Cubes and *A Space for All*

My Superpowers

1. Answer each prompt
2. Decorate and cut out each shape.
3. Use your 3DuxDesign kit to construct your cube.
4. In your group, roll one cube at a time until each team member has a different side facing up (excluding names).
5. Copy answers onto your "Design Features" card.
6. If any design features are empty, decide on answers as a team and complete the sheet.
7. Design and build **A Space for All** that includes all of the design features.

Design Features Sheet

Fill out one answer per player. If any features remain empty (if playing with less than 5 team members), decide on answers to those features as a team. Use these answers to design and build a public space that represents at least one character feature from each member of your team.
