'We all are equal citizens'

PNB ■ NEW DELHI

President Droupadi Murmu has emphasised the unity of diverse identities among Indians and their equal citizenship opportunities, rights, and duties. She urged the nation to embrace harmony and brotherhood during her address on the eve of the 77th Independence Day.

"In this land, each one of us is an equal citizen; each one of us has an equal opportunity, equal rights and equal duties," she said, underlining the significance of the momentous occasion of India's Independence Day.

The President highlighted the intrinsic value of India's democracy and the historic transformation brought about by breaking free from colonial rule. "India is the mother of democracy and since ancient times we have democratic institutions functioning at the grassroots. But long years of colonial rule wiped them out. On 15th August 1947, the nation woke up to a new dawn. We not only won

freedom from foreign rule but also the freedom to rewrite our destiny," she affirmed.

President Murmu also underlined the pivotal role of the Constitution in guiding the nation's ideals with its preamble encapsulating the spirit of the freedom struggle. She called for embracing the essence of harmony and brotherhood as a means to fulfill the aspirations of the nation's builders.

Honouring the contribution of women freedom fighters, she acknowledged the significant progress made by women in various fields, noting their growing participation and impact. "The development of women was among the ideals of our freedom struggle," she asserted, emphasising the importance of empowering women economically, thereby enhancing their position in society.

Drawing attention to the urgent need to address climate change and global warming, President Murmu stressed the consequences of the "culture of greed," which has led to recurring floods and droughts. She

President Droupadi Murmu called for a collective effort to safeguard the environment.

While acknowledging the uncertainties created by the pandemic and subsequent international events, the President lauded India's resilience and its successful conversion of challenges into opportunities, result-

ing in substantial GDP growth. She extended gratitude to the nation's farmers, whose contributions have significantly propelled economic growth.

President Murmu also addressed global inflation concerns and commended India's effective measures to contain it, protecting common citizens while providing a robust security net for the vulnerable.

Praising the government's multifaceted approach to progress - with a focus on enterprise and expanded welfare initiatives - she emphasised the sustained efforts to uplift the

deprived sections of society.

As the first tribal woman to become the President, Murmu called on tribal communities to cherish their traditions while embracing modernity. She highlighted tailored programs to uplift their conditions and encourage their participation in the nation's journey of progress. Regarding education, she acknowledged the transformative impact of the National Education Policy of 2020, which merges ancient values with modern skills, paving the way for a significant transformation of the education sector.

In the realm of space research, President Murmu appreciated India's achievements, including the upcoming moon mission Chandrayaan-3. She envisioned these endeavors as stepping stones to even greater feats in the future. Concluding her address, she urged the Aam Aadmi Party National Research Foundation, a platform to foster research, innovation, and entrepreneurship, with a substantial allocation of Rs. 50,000 crore for the next five years.

'Will PM question graft in his Govt?'

Ramesh alleges irregularities in Govt projects, schemes, slams Centre

PNB ■ NEW DELHI

The Congress on Monday took a swipe at the Government over alleged irregularities in several of Government projects highlighted by the CAG of India in its report, saying that Prime Minister Narendra Modi will unleash torrents of lies from the ramparts of the Red Fort and questioned if he would have the courage to question his own Government and Ministers about their corruption and incompetence. The remarks from the Congress came after the CAG reports tabled in Parliament last week highlighted several alleged irregularities in the projects and schemes of the Government.

Prime Minister. He said that the sanctioned cost of the 26,316 km of highways that have been awarded was Rs 9,46,588 crore, as against the CCEA-approved length of 34,800 km at a cost of Rs 5,35,000 crore.

"This means that these projects were awarded at a cost of Rs 32.17 crore per km, more than double the cost of Rs 15.37 crore per km approved by the CCEA. Despite multiple cost overruns, only 13,499 km of national highways were completed till March 31, 2023, less than 39 per cent of the CCEA-approved length," Ramesh said.

He said that last week the CAG tabled a series of reports in Parliament. Even a defanged CAG has been able to expose the corruption and incompetence in the Bharatmala bidding process - successful bidders not fulfilling tender conditions, bidders being selected on the basis of falsified documents, work awarded without approved detailed project reports or faulty DPRs and the diversion of funds to the tune of Rs 3,598.52 crore from escrow accounts.

"Will the Prime Minister take responsibility for this incompetence and corruption in the Bharatmala projects under his

direct watch?" he questioned. He also pointed out that the CAG has covered violations of toll rules, with NHAI wrongly collecting Rs 132.05 crore from commuters in just five randomly-audited toll plazas.

At the same time, the NHAI lost revenue of Rs 133.36 crore due to lack of provision for revenue sharing in concession agreements in two sections of NH projects. "If this audit were extrapolated to the whole country, the overall loss to the exchequer and the commuters would amount to lakhs of crores. Will the Prime Minister take action against the Union Minister of Road Transport and Highways?" he asked.

"The CAG has reported payments to the dead in the Prime Minister's favorite Ayushman Bharat Scheme as 88,769 patients had died during treatment and yet, 2,14,923 claims were shown as paid in respect of fresh treatments given to these dead patients."

Other than that, 7.5 lakh registrations were linked to a single mobile number and 4,761 registrations made against seven Aadhar numbers. In total there are more than 1.24 crore fake beneficiaries linked to only 1,86,855 mobile numbers," he said, asking the Prime Minister if he would order an investigation of who were the real beneficiaries of this massive Digital India scam in Ayushman Bharat.

He said that the CAG has raised similar questions on irregularities in the Ayodhya Development Project and the diversion of old page pension funds under the National Social Assistance Programme for publication of the Modi government's schemes instead.

"We demand answers from the Prime Minister," he said.

President Droupadi Murmu has approved 76 Gallantry awards to Armed Forces and Central Armed Police Forces personnel on the eve of Independence Day. These include four Kirti Chakra (posthumous), 11 Shaurya Chakras, including five posthumous, two Bar to Sena Medals

Armed forces, CAPF bag 76 Gallantry awards

PIONEER NEWS SERVICE ■ NEW DELHI

President Droupadi Murmu has approved 76 Gallantry awards to Armed Forces and Central Armed Police Forces personnel on the eve of Independence Day. These include four Kirti Chakra (posthumous), 11 Shaurya Chakras, including five posthumous, two Bar to Sena Medals

(Gallantry), 52 Sena Medals (Gallantry), three Nao Sena Medal (Gallantry) and four Vayu Sena Medals (Gallantry). The Kirti Chakra awardees announced on Monday include Dillip Kumar (posthumous), Raj Kumar Yadava (posthumous), Babu Babha (posthumous) and Sambhu Roy (posthumous). Of them were from the Central Reserve Police Force (CRPF).

The list of Shaurya Chakra include Major Vijay Verma, Major Vikas Bhabhu (posthumous), Major Mustafa Bohara (posthumous), Major Sachin Negi, Major Rajendra Prasad, Major Ravinder Singh Rawat, Havildar Vivek Singh Tomar (posthumous), Naik Shrim Singh, Rifleman Kalubhawan Manis, Sd/Fullan Ojastri (posthumous) and Gauri Mukesh Kumar.

Military being given best arms, training, says Defence Min

PIONEER NEWS SERVICE ■ NEW DELHI

The Government is making all efforts to modernise the armed forces with state-of-the-art weaponry and the best training, to protect the country from all future challenges, Defence Minister Rajnath Singh said in his message to soldiers through Aatmanirbhav on the eve of the 77th Independence Day.

He also said today the armed forces are being trained with simulators and other modern technologies and their capabilities are being enhanced through several exercises with friendly countries across the globe, as training on niche systems, newly-developing technologies and changing concepts of warfare is the need of the hour.

Highlighting various welfare measures taken for veterans in recent years, he said, special attention is being paid to ensure a dignified life for the soldiers not only during service but

even after retirement. Rajnath pointed out that the long-pending demand of the Armed Forces for the One Rank, One Pension scheme was fulfilled by the Government as soon as it came to power in 2014. "The scheme has been revised this year and an amount of Rs 8,413 crore has been paid to more than 17 lakh pensioners," he said. Highlighting the role of soldiers in maintaining the sovereignty and independence of India, Rajnath said, the nation stands with its gallant soldiers who protect the borders by putting their lives at stake, without bothering for their comforts and facilities. He stated that India has always been a peace-loving nation, but that does not mean that it would spare those who cast an evil eye. "We not only seek peace but also express our commitment to peace through our actions. But at the same time, we are also very clear that if anyone dares to look at us with ill intention or hostility, our forces will give a befitting reply," he added.

India, China vow to resolve Ladakh issue via dialogue

PNB ■ NEW DELHI

India and China on Monday resolved to continue the process of dialogue to restore normalcy at the border in Ladakh during the military level talks between the Corps Commanders of the two sides. Both the delegations also agreed to find a way out to disengage from the friction points in Depsang and Demchok at the earliest.

It was the 19th round of talks between the two military commanders since trouble erupted at the Line of Actual Control (LAC) in Eastern Ladakh in May 2020. Moreover, these talks were held days before Prime Minister Narendra Modi and Chinese President Xi Jinping are likely to meet on the sidelines of the Brazil, Russia, India, China and South Africa (BRICS) summit in Johannesburg on August 22-24. The Chinese President is also expected to visit New Delhi in September for the G-20

As regards the latest round of Corps Commander level talks on Monday, it took place at the Chushul-Moizo border meeting point on the Indian side at the LAC, sources said here adding the parleys began at 9.30 AM.

The Indian delegation was led by Lt-General Rashim Bhat, the Commander of the Leh-based 14 Corps. The Chinese team was headed by the commander of the South Xinjiang military district.

The Indian and Chinese troops are locked in an over three-year confrontation in certain friction points in eastern Ladakh where the two sides

completed disengagement from several areas following extensive diplomatic and military talks. In the 18th round of the military dialogue held on April 23, India strongly pressed for resolving the lingering issues at Depsang and Demchok.

Last month, the Ministry of External Affairs (MEA) said Prime Minister Narendra Modi and Chinese President Xi Jinping spoke on the need to stabilise bilateral relations at a dinner during the G-20 summit in Bali last year.

On July 26, National Security Advisor (NSA) Ajit Doval met top Chinese diplomat Wang Yi on the sidelines of a meeting of the five-nation grouping BRICS in Johannesburg.

In a statement on the meeting, the MEA said Doval conveyed that the situation along the LAC in the western sector of the India-China boundary since 2020 had "evolved strategically" and the public and political basis of the relationship.

Indo-US ties will grow further, says Ro Khanna

PNB ■ NEW DELHI

Underlining the robust ties between the countries, US Congressman Ro Khanna said on Monday his country is going to continue to expand its engagement with India to make it one of the most important relationships of the 21st century.

Currently on a visit to India, the Indian-American lawmaker said deeper cooperation between India and the US in areas of critical technologies and Defence would be beneficial not only for the two countries but for the globe.

Khanna and Congressman Michael Waltz, the two co-chairs of the bipartisan Congressional Caucus on India and

Indian Americans, are leading a Congressional delegation to India. They will attend Prime Minister Narendra Modi's address to the nation on Independence Day from the ramparts of the Red Fort.

"The India-US relationship has never been so stronger. It is building on Defence cooperation, economic cooperation, technology cooperation, cooperation on climate," Khanna said. The Congressman also described Prime Minister Narendra Modi's recent visit to the US as very successful. "The Prime Minister's visit to the United States was a success. President (Joe) Biden comes here (India) in September. We are going to continue to make

this one of the most important relationships of the 21st century," he said.

The lawmaker also hailed growing India-US cooperation in the maritime security domain. "I am very pleased to see exercises with the American Navy to make sure that the Arabian Sea is safe for free shipping lanes," he added. In an interview to PTI, he said India can play a "helpful role" in bringing "just peace" to Ukraine considering its "historical relationship" with Russia.

Khanna also asserted that China must respect its borders with India and that Washington would strongly support New Delhi if it faces any security challenge.

Rahul has lunch pe charcha with sabziwala

PIONEER NEWS SERVICE ■ NEW DELHI

Continuing with his common man outreach program, former Congress president Rahul Gandhi on Monday invited vegetable vendor Rameshwar, who was seen in a recent social media video breaking down while talking about his hardships due to inflation, over a lunch at his residence in Lutyens Delhi.

Sharing his picture with Rameshwar, Rahul Gandhi said in Hindi on social media platforms Facebook and X, "Rameshwar ji is a lively person. In him, the glimpse of the affable nature of a cross of Indians can be seen. Those who move forward with a smile even in

adverse circumstances are truly 'Bharat Bhagya Vidhata' (India's destiny makers). The Congress also shared their picture on X and said, "Rameshwar ji had expressed his desire to meet the people's hero. They met up."

Rahul's sister and party's General Secretary Priyanka Gandhi, too, shared Rahul and the vegetable vendor's photo on social media with Mahatma Gandhi's famous bhajan 'Jai Jai Jai to the lotus, peer purse Joane re, Ji Lalaji, Jai Bharat Bhagya Vidhata'.

In pictures of the meeting shared by several people on the microblogging sites, Rahul and Rameshwar can be seen having lunch at the former's home and sharing light moments during the meeting.

In the viral video, Rameshwar was seen with his empty hand-cart, saying that he could not buy tomatoes as the prices were too high. Asked if he would buy some other vegetable, he said, "No, I will continue to eat what I have" and then broke down. The video had gone viral and had been shared

by Rahul Gandhi as well as several other Congress leaders to hit out at the Government over rising prices. After his successful 3500 km Zamyajvaram to Kashmir 'Bharat' Jodo Yatra, Rahul has taken to spontaneous interactions with people at the grassroots level like vegetable

vendors of Azadpur Mandi, farmers in the field, truck drivers, cycle market, gig workers etc.

In one of the rare moments after his interactions with female agriculturists in Haryana, the women folk reached Delhi in a hired van and dined and danced with Rahul along with his mother former Congress chief Sonia Gandhi and sister Priyanka Gandhi. Congress sources said that Rahul had taken to spontaneous interactions with people at the grassroots level like vegetable

Govt urged to implement 'one drug, one quality, one price'

IMA expresses concern over NMC order on generic meds as less than 0.10% tested for quality

PIONEER NEWS SERVICE ■ NEW DELHI

The National Medical Council's (NMC) recent regulation which mandates doctors to prescribe only generic medicines has not gone down well with the Indian Medical Association (IMA) which has called for its deferment.

The IMA, which represents private doctors from across the country, also

flagged concerns over the standard of drugs manufactured in India as less than 0.10 per cent are tested for quality. In a statement, the association also questioned the NMC move, stating that if doctors are not allowed to prescribe branded drugs, then why should such drugs be licensed at all? The NMC in its regulations relating to professional conduct of registered medical practitioners states that all doctors must prescribe generic drugs, failing which they will be penalised and their

licence may be suspended for a period. It also asked doctors to avoid prescribing branded generic drugs. The IMA said, "The biggest impediment to generic drugs is the uncertainty about their quality. Quality control in the nation being very weak, there is practically no guarantee of the quality of drugs and prescribing drugs without assured quality would be detrimental to patient health."

Less than 0.1 per cent of the drugs manufactured in India are tested for quality.

This step should be deferred till the Government can assure the quality of all the drugs it releases into the market. Patient safety and security are not negotiable," it said. The IMA appealed to the Government to have a "one drug, one quality, one price" system whereby all brands should be either sold at the same price which should be controlled or banned, or only generic medicines allowed while ensuring highest quality of these drugs.
