The Strategist Haul: What the Editors Bought in September

Tammy Fender Roman Chamomile Tonic by Tammy Fender

\$60

I didn't think tonic water did much for anyone's skin until I tried this one. I have acne-prone skin and there is always a breakout somewhere on my face. A little spritz in the morning and at night calms my face from any redness or irritation. I especially love to use it after washing off an exfoliating mask to help calm my skin.
