“I am obsessed with masking. I do it multiple times a week and typically on a Sunday morning, I’ll wake up and put on several masks to restore and replenish my skin after a long week. I also love to take a bath and multi-mask—a good habit I picked up in quarantine! This restorative radiance mask is really rich and thick, plus, it’s pink! It smells divine but it also hydrates the skin thanks to extracts of lotus and baobab and the floral waters of jasmine and rose. Be sure to apply a thick layer and let it all soak in—your skin will thank you for it.”
