Tammy Fender At-Home Facial Treatment Kit, \$185

Winter weather takes a toll on delicate skin, and so many D.I.Y. treatments fall sadly short of an actual spa visit. But Tammy Fender's [Facial Kits](#) were designed to deliver big results at home.

There are two kit options: the Restorative kit (which is best for dry and depleted skin), and Purifying set (for congested and oily skin types). Each comes with the instructions you need to achieve a balanced, glowing complexion at home, and both arrive beautifully boxed.

The [Restorative](#) kit comes with an award-winning Epi-Peel Exfoliating Mask, as well as a Restorative Radiance Masque, Cleansing Milk, Bulgarian Rose Water, Quintessential Serum, and Bulgarian Lavender Body Oil.

The Purifying kit combines the Epi-Peel mask, with Purifying Cleansing Gel, Essential C Tonic, Clarifying Dermagel, Purifying Luculent Masque, and Rose Geranium & Tangerine Body Lotion.
