The Must-Have Mask: Tammy Fender™ Restorative Radiance Masque (\$235)

“People like to attack their skin with something intense after a late night, but my strategy is the opposite: Give your skin a ton of soothing moisture and it will plump up and smooth out. Tammy Fender makes a pink clay mask that is just the most moisturizing, calming substance on earth. I leave it on for five to 10 minutes. It’s thick, smells like roses, and will absolutely return anyone’s skin to life.”
