## THE NEW NATURALS

Vegan, natural, and organic skincare has become less the exception than the rule. In honor of Earth Day, we've chosen five eco-friendly anti-aging face care regimens that highlight the companies and products that are most effectively harnessing what Mother Nature has to offer. None of them contains parabens, sulfates, or silicones, and each has the ability to make a lasting impact on your skin.

	GLAM GREEN	OH, SO EURO	SUPERSIMPLE	ECO CLASSICS	HIGH TECH
POSTER CHILD					
CONCEPT	A step-by-step program favored by the fashion set, with products geared toward jet-lag recovery.	A regimen built from wine grapes and roses, with a focus on nourished radiance.	If you can't eat it, you shouldn't put it on your skin.	Aiming at a balanced glow, these trailblazers were around long before it was cool.	Peptides, probiotics, and plant stem cells, all derived from natural sources.
