

**Hurricane Ian...Oh Boy!**

The eye of Hurricane Ian rolled right over our hometown of Fort Myers. Both our home and our Florida Warehouse are here in Fort Myers. The coastal areas were decimated, but inland folks like us were blessed to sustain only minimal damage. We (my wife and I) have used that blessing to come to the aid of others we know (and strangers) that have lost everything.

We are so grateful to see our community and people across the country coming together to help those affected by the hurricane. At a time when there is so much divisiveness, it's wonderful to see unity in times of trouble. I guess it's the proverbial "Silver Lining."

If you wish to contribute to the community restoration projects at Fort Myers, I urge you to look at the videos I'm sharing via this newsletter.

While we continue rebuilding our lives and those of our community members, here are three ways it will impact contractors like yourself.

- Your orders will not get delayed in any way
- Our phones are clipped to our sides and reachable 24/6
- We remain flush with Every Type of Detectable Warning Item at the Lowest Cost.

Remember,

- All our ADA-approved products are already 100% manufactured in the USA
- Our high volumes help us Guaranty Lowest Cost on every purchase
- Ship Next Day. Orders over \$5k ship for free!

Let me know if you need any additional information or assistance.

Here to serve!
