

PRO **TRIPOD LEVELING HEAD**

PRODUCT MANUAL

Basic Adjustments

Tilt/Panning Action

The tilt/panning action of the Pro Leveling Head can be adjusted by unlocking the Knurled Control Ring. This allows you to position your optic at the desired angle, or pan the optic while viewing.

- To unlock the leveling head, rotate the Knurled Control Ring counter-clockwise (viewing from the top) until the leveling head moves freely. Adjust to your desired position and lock the leveling head.
 - ◆ To be able to pan while viewing, leave the leveling head unlocked.
- To lock the leveling head, rotate the Knurled Control Ring clockwise (viewing from the top) until you feel tension on the ring. Do not overtighten.

Attaching Optics to Leveling

To mount your optic to the tripod,

Thread your optic onto the leveling

Note: To mount binoculars to the tripod, a binocular adapter is required. Purchase Vortex® binocular adapter from your local dealer.
