When it comes to selecting a complete TIG welding package, the Crossfire ECOWAVE 200 AC/DC TIG Welder is the ideal welder's choice. The inverter based design offers the ultimate in arc performance. Outputs include Stick, DC TIG and AC TIG, required for superior aluminum welding. The machine is packed with features desirable for TIG welding including pulse control and a wide range of pre-weld and post-weld options. With remote contactor control and infinite amperage range from 10 - 200 amps. The ECOWAVE 200 comes complete and ready to tackle your most demanding TIG welding applications.

FEATURES:

- AC/DC 200 AMP Pulse TIG Welder
- DC TIG Welding (GTAW) with touch start TIG
- 12.5 ft. electrode cable and holder
- Thermal overload
- Remote Foot Control Kit
- Flow Gauge, CGA580 + 10' gas hose
- SMAW Stick welding
- 10 ft. ground cable and clamp
- Infinite amperage control
- 6 ft. power input cord and 230V plug
- WP26 Torch with 16 ft cable comes with remote amperage control

OPTIONAL EQUIPMENT INCLUDES:

3 Tier Cart
CF-99900

2 Tier Cart w/ Storage
CF-99916

*Limited 3 year warranty
