Fell

HELLO! We are Fell, a husband + wife design studio based in Utah that creates unique product to connect people with nature. Our work is characterized by its modern aesthetic and quality material.

A fell is a mountainous landscape, our name reflects our love of the great outdoors. We find joy in nature, and hope to inspire others to spend more time outside as well.

Our simple approach to design tells unique stories to each individual that finds our work. We love to illustrate the places that inspire us, and we love to illustrate the places that inspire you! We hope that our goods help your customers feel more inspired to explore.
