Tayogo W22 includes 2 play modes:
- Bluetooth Mode
- MP3 Play Mode

After powering on, it defaults to Bluetooth mode. Double-click the Multi-Function Button (MFB) to switch Bluetooth mode/MP3 Play mode.

Function:
1.Power On: Press and hold the Multi-Function Button (MFB) for 2 seconds to power on. Bluetooth will automatically reconnect to the last paired device.

2.Bluetooth Mode:
Bluetooth Connection: Press and hold the Multi-Function Button (MFB) for 2 seconds to power on.

It defaults to Bluetooth mode→ Open the Bluetooth setting on your phone or tablet →search for new Bluetooth device "Tayogo W22"→ click to connect.

If the connection is successful, the phone will display the Bluetooth symbol and the battery level.
If connection fails, it will enter pairing mode automatically, indicated by alternating red and blue flashing lights.

Press the "+" button to increase the volume, long press for the next.
Press the "-" button to decrease the volume, long press for the previous.
Press the Multi-Function Button (MFB) to play/pause music, long press for 3 seconds to power off.

3.Answering Calls: Short press the Multi-Function Button (MFB) to answer incoming calls. During a call, short press the MFB button to end the call.
For incoming calls, press the MFB button for 1 second to reject the call.

4.Voice Assistant (SIRI): Long press the Multi-Function Button (MFB) for 1 second until you hear a "beep" sound, then release to activate the voice assistant (SIRI) function.

5.MP3 Play mode:
After powering on, it defaults to Bluetooth mode. Double-click the Multi-Function Button (MFB) to switch to MP3 mode.

Press the "+" button to increase the volume, long press for the next.
Press the "-" button to decrease the volume, long press for the previous.
Press the Multi-Function Button (MFB) to play/pause music, long press for 3 seconds to power off.
Triple-click the Multi-Function Button (MFB) to switch between the 3 playing modes (Shuffle/Order/Single Play).

Shuffle play: play randomly from all the play lists.
Order play: The order play is based on the time when the song was downloaded.
Single play: repeat a single song.

6.Power Off: Press and hold the Multi-Function Button (MFB) for 3 seconds to power off, and the red light will flash 3 times.
REMARK: During mp3 mode, you can't use the Bluetooth function of the headphone until you switch to Bluetooth mode.

7.Connect to PC or Mac
To connect to a PC or Mac computer and transfer files:
Plug the magnetic cable into the PC or Mac and then connect the cable to the Tayogo W22.
When the headphone connect to the computer, a flash disk named "Tayogo W22" will display on the computer.

To copy files to the W22, drag or copy the files to W22.

8.Charging: To charge the headphone, connect the headphone with PC's USB port or USB adapter (5V/1A) via the Magnetic cable. The red light will stay on during charging, and it will turn blue when fully charged. Charging time is 1-1.5 hours.

9.LED Indicators:
MP3 Mode: Blue light flashes slowly.
Pairing Mode: Red/blue lights alternate flashing.
Low Battery Warning: Red light flashes.
Charging: Red light stays on continuously; when fully charged, blue light stays on continuously.

10.Language Switch: Press the Multi-Function Button (MFB) 5 times to switch the language between Chinese and English.

11.Reset:
In the powered-off state, press and hold the Multi-Function Button (MFB) for 8 seconds. The W22 will shut down and then restart, restoring to factory settings, the Red and blue indicators flash alternately.

12.How to Connect Two Phones via Bluetooth:
a.Powering on the W22, it will Enter pairing mode (alternating red and blue flashing lights) and connect with the first phone.
b.Turn off the Bluetooth on the first phone; the W22 will re-enter pairing mode, then search the "Tayogo W22" on the second phone Bluetooth setting and connect.
c.Open the Bluetooth setting on the first phone, click and connected "Tayogo W22" device.
