## Professional Production Service

Pro Sound and Lighting provide equipment and technical support for event planners, venues, and the conferencing industry. We pride ourselves on our expert knowledge of audio and visual equipment and utilise this to assist you with your event and always aim to go beyond your expectations.

We understand that no two events are the same, so we always tailor the equipment and set-up arrangement to your unique event and budget.

We provide a friendly service and aim to help make the process easy by discussing all the possible options for your event.

We understand that you may have a particular vision and we are happy to give you the technical expertise in order to achieve this.

Our team are dedicated to providing you with a professional, efficient and reliable service. Our on-site team of technicians work in the background so as not to draw attention away from the main event.

We have worked on a number of different events, including; seminars, conferences, live events, both indoor and outdoor, graduation ceremonies, fashion shows, award ceremonies, annual general meetings, product launches, Carols by Candle Lights and many more.

At these events, we use a range of products which we trust and know are reliable.

Give us a call today and see what we can do for you!

## Bars, Restaurants and Function Centers

The Staff at Pro Sound And Lighting fully understand that your bar, restaurant or function centre is a personal place which you want to transform to allow the patron a chance to feel comfortable and take in on what's on offer.

Our approach has always been to see your business with fresh eyes and offer new solutions. All you need is a basic idea of what you require and we will develop this into a working proposal.

Every enquiry begins with a conversation with one of installation professionals.

They are here to discuss your needs, ideas and time-scale for installation.

We follow up with a site-visit at a time to suit you; this is an opportunity to check the practical elements of the installation and fine-tune elements necessary in order to put together a complete quotation.

We are available for any questions following the quotation phase in order to help you make the right decision for your setting.

We supply and install a wide range of commercial Audio, Visual and Lighting equipment specially designed for both office and commercial premises.

## Houses Of Worship

In a place of Worship there are many determining factors for selecting the right PA and Visual combination for a specific site. We can create systems that suit your current usage and future expansion.

Whether you are moving into a new building or updating your current worn-out equipment, we are focused on delivering a solution that suits your budget without losing the quality!

Every enquiry begins with a conversation with one of our installation professionals. They will discuss your needs, listen to your ideas and get you running with the best equipment possible based on your specifications and their experience.

We follow up with a site-visit at a time to suit you; this is an opportunity to check the practical elements of the installation and fine-tune elements necessary in order to put together a complete quotation. We are available to answer any questions following the quotation phase in order to help you make the right decision for your unique location.

Once the installation is complete, we can offer comprehensive training with the view to help you make the most of your AV system. This includes the basic operation of audio and lighting controllers, wireless microphones etc., thus ensuring the optimum performance of your system and ensuring that you are able to deliver your message clearly and effectively.
